

Growth and Value Equity Fund

AS OF SEPTEMBER 30, 2017

Investment Objective

The Growth and Value Equity Fund is an OkMRF white label fund. It seeks to achieve returns of 100 basis points (1%) in excess of the S&P 500 index and rank above median in a universe of large cap core managers over a complete market cycle (typically 3 to 5 years).

Investment Strategy

The Growth and Value Equity Fund utilizes a fund-of-funds approach to invest primarily in the common stock of large U.S. companies. The stocks are actively monitored to include rapidly growing companies (growth stocks) and companies with a stock price which (in the opinion of the investment manager) does not fairly reflect the value of the company (value stocks). Since the Growth and Value Equity Fund is invested primarily in common stock, there can be considerable volatility, with the potential for negative yearly returns. Participants should have a minimum investment time horizon of 7 years, with 10 years being preferable.
