E. Benefit Payments and Contribution Refunds

Motion made by Lockett, seconded by Tinker to approve all items on the Consent Agenda.

Motion carried: AYE: Doolen, Johnson, Johnston, Lockett, Park, Reames, Rooney, and Tinker

NAY: None

3. Consideration and Possible Action of Items Removed from the Consent Agenda

No action taken.

4. Comments from the Public

None.

5. JPMorgan Real Estate: Annual Update from Investment Manager – Larry Ostow and Mike Edwards

Ostow began with an overview of the Strategic Property Fund's (SPF) strategy, the flagship core asset within the Real Estate allocation. Strong returns for the third and fourth quarters of 2021, produced a one (1) year return of 20.9%, being driven by broad based rent growth, historically accretive debt due to low funding costs, and strong relative value versus other financial alternatives.

While all four (4) sectors of the portfolio are valuable to the strategy, industrial continues to lead the way with properties located in Southern California being a large contributor. Urban multi-family residences saw a third quarter recovery benefiting the residential sector, while both office and retail sectors positively contributed to strong returns due to increased leasing activity. Geographic and sector exposures fall in line with the NFI-ODCE index, in which SPF remains the largest fund representing 18% of the index. Currently, SPF has no redemption queue and expects to call new capital in one (1) to three (3) months. Prospectively, the SPF strategy will focus on strong asset selection within high growth markets, increasing their development pipeline to single family rentals and industrial joint ventures, and increasing development within sectors such as labs, single family rentals, and truck terminals.

Ostow reviewed the Special Situation Property Fund (SSPF) by providing an overview of the open-end value add fund. High quality assets and high growth markets were the main contributors to SSPF's year-end return on 24.3%, outperforming the index by 210 bps. The industrial sector was the primary driver of appreciation within SSPF during the past year noting new developments within the office portfolio and life science space. Currently, SSPF has no redemption queue and expects to call new capital within one (1) to three (3) months. Future returns are projected to fall within the mid-teens over the next three (3) years with additional life science development in Boston, industrial development in Huntington Beach, and suburban multi-family development.

6. **Consideration and Possible Action Regarding Investment Committee Report**

A. **ACG: 2021 Year in Review with Global Economic Update**

Rives began presentation by reviewing broad asset class performance over the last ten (10) years, reiterating the importance of a long-term strategic allocation. 2021 looked similar to 2020 with U.S. equities continuing to be the primary driver of returns. Concentrated outperformance was apparent within the S&P 500 with the top ten (10) holdings providing two-thirds of the return. Global developed market equities outperformed international developed markets, mainly due to their U.S. exposure, reporting returns of over 18.0% while Europe and Japan markets were up around 10.0%. Emerging markets were the most challenged due to China's recovery beginning earlier than the rest of the globe and reported negative returns of 2.5%. Within the bond market, interest rates continue to be low in absolute terms, but with rates projected to rise, prices of bonds will fall causing negative performance.

ACG remains focused on the macro-economic picture, projecting muted return expectations based on how strong returns have been over the past few years. While the COVID-19 variant, Omicron, heightened fears of potential lockdowns and decreased spending, many people across the globe were determined to get back to normalcy. Growth for the fourth quarter of 2021 was reported at 7.0% and totaled one of the strongest economic years since 1984. Growth expectations for 2022 are projected to fall above the GDP growth rate trend, but not as strong due to geopolitical risks between Russia and Ukraine, as well as China's relationship with the United States. Yields are expected to tick up as the Fed announced interest rate increases expected to begin in March, along with their plan to wind down bond purchases.

B. **ACG: Review and Discussion of Monthly ASAP Reports**

Rives reviewed monthly ASAP reports. At the end of the calendar year, the DB portfolio is modestly overweight to equities due to strong performance and relatively underweight in Real Assets due to anticipated capital calls. December was a strong month and provided benefit to the ten (10) year annualized return of 10.46%, exceeding the portfolio's rate of return hurdle. Rives continued with an individual asset class review discussing significant dispersion between growth and value within both the U.S. and non-U.S. equity space, citing value add money manager Artisan Partners outperforming the index between 500-600 bps. The Long/Short

portfolio will receive a deeper review at February's meetings, but the portfolio did face struggles in 2021 due to low quality stocks outperforming high quality stocks. Fixed income indexes were down 1.5% while this allocation reported a positive 0.5%, demonstrating the active management component can mitigate the rising U.S. interest rate environment. Real Estate reported the strongest quarter and year ever for the NFI-ODCE and JPMorgan kept pace with returns over 20.0% gross of fees.

Rives concluded the presentation by reviewing the DC fund line-up citing similar remarks to the DB portfolio. The Growth & Value Fund Option reported strong absolute return due to Vanguard Windsor II's value investment strategy. The Aggressive Equity option outperformed the index due to both TimesSquare and Victory Integrity's energy exposure in the fourth quarter of 2021. ESG U.S. Stock Fund continues to see cash inflow and participation, as well as strong returns due to stock selection and health care exposure. Due to the rising inflationary environment, there has been an uptick in cash inflow to the Real Assets option as investors look towards the strength of the REITs market and increase in demand and prices of commodities and oil.

C. ACG: Asset Allocation and Capital Market Assumptions Review

Moore reviewed ACG's capital market assumption modeling tool which utilizes two sets of assumptions, intermediate term (5-10 years) and long term (10+ years). Due to an increase in yields in 2021 and a better starting point for investments moving forward, assumptions for Fixed Income, Equities, and Real Estate all improved with the ten (10) year median return increasing 30 bps. Over the longer term, the current asset allocation mix is appropriate to achieve the portfolio's long-term rate of return hurdle but could be harder to achieve over the next decade for the intermediate term.

Motion made by Rooney, seconded by Tinker to accept the Asset Allocation Analysis as presented by ACG.

Motion carried: AYE: Doolen, Johnson, Johnston, Lockett, Park, Reames, Rooney, and Tinker

NAY: None

D. ACG: Review of OkMRF 2021 Highlights and 2022 Initiatives

Moore began discussion with thanking the Board for their continued commitment to education and guidance of both the DB and DC portfolios. Moore reviewed the highlights from the past year noting online seminar education for Trustees, major education in the Real Assets space which led to the addition of Clarion Lion Industrial Trust, replacement of Fred Alger with T. Rowe Price within the DC Growth & Value Fund option, and virtual due diligence with Northern Trust to review underlying services. Initiatives for 2022 will be a continuation of oversight on portfolios and managers, educational sessions, real estate portfolio transition, a small/mid cap equity allocation review, and investment manager fee and peer group comparisons.

Motion made by Tinker, seconded by Park to accept the OkMRF 2021 Highlights and 2022 Initiatives presented by ACG.

Motion carried: AYE: Doolen, Johnson, Johnston, Lockett, Park, Reames, Rooney, and Tinker

NAY: None

E. Consideration and Possible Action on Reallocation and/or Rebalancing of Assets Among Investment Managers as Recommended by the Investment Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustee at the Meeting

No action taken.

7. Consideration and Possible Action Regarding Administrative Committee Report

A. Consideration and Possible Action Regarding Resolution 2022-1 Approving the Destruction of Certain Records as Recommended by the Administrative Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the Meeting

Motion made by Johnston, seconded by Rooney to approve Resolution 2022-1, approving destruction of certain records.

Motion carried: AYE: Doolen, Johnson, Johnston, Lockett, Park, Reames, Rooney, and Tinker

NAY: None

8. Consideration and Possible Action Regarding Contract Committee Report

No action taken.

9. Consideration and Possible Action on Resolution 2022-2 Regarding an Amendment to OkMRF CEO Customized Manager Option Plan Adopting the OkMRF Revised and Restated Master Defined Contribution Retirement Plan

Motion made by Tinker, seconded by Park to approve the amendment to the OkMRF CMO plan and adopt the revised and restated Defined Contribution Master Plan and Joinder Agreement.

Motion carried: AYE: Doolen, Johnson, Johnston, Lockett, Park, Reames, Rooney, and Tinker

NAY: None

10. Receive Report on Newly Adopted or Amended OkMRF Member Plans

Whatley reported on plan changes for the OkMRF members and announced new DC member, Town of Salina, recognizing Girardi for her efforts.

11. OkMRF Staff Report

Cox reported on the following items:

- Implementation completed of the newly approved tiered DC fee schedule. Process went very smoothly.
- Next month, BlackRock will present an overview of the Liquid Absolute Return investment within the Fixed Income allocation.
- Two (2) in-person Committee meetings will be held next month, and all Trustees are welcome to attend:

- Investment Committee meeting to be held on Thursday, February 24th at 2:00 p.m. to discuss semi-annual review of quarterly performance, long/short portfolio, and small/smld cap portfolio.
- Contract Committee meeting to be held on Friday, February 25th at 9:30 a.m. to discuss vendor evaluations and possible fiduciary liability and crime policy renewals.
- Provided InnovAge Holding Corp. securities litigation update, stating Saxena White filed a notice for OkMRF to withdraw application for Lead Plaintiff in early January.
- Discussed upcoming continuing educational opportunities for Trustees. Let Cox know of interest.
- Provided return-to-work and pandemic update:
 - Staff continues to serve our Members and Participants while keeping Staff and Trustees safe
 - Outside visitors are welcome in Board room to conduct business
 - Whatley and Girardi are willing to travel and conduct safety protocols upon return to office
 - Offices are open daily with work from home employees on a voluntary in-office rotation basis
 - Hybrid return-to-work implementation is postponed until April 1st due to Oklahoma's continued hospital crisis and record number of new COVID-19 cases
 - Protection of Staff and Trustee well-being is top priority while continuing to carry on the business of the Trust

12. **New Business**

None.

13. **Trustee/Member Comments**

Rooney thanked Girardi for discussing CMO plans at conference.

14. **Adjourn**

With no further business to conduct meeting adjourned.

Robert Park, Secretary

Donna Doolen, Chair

Respectfully submitted by:

Katie Girardi

1 Overall Morningstar Rating for Total Return Fund, K share, as of Dec 31, 2021 rated against 557 Intermediate Core-Plus Bond Funds based on risk adjusted total return. Morningstar has awarded the Fund a Gold medal, its highest level of conviction. (Effective Nov 22, 2021). **2** Overall Morningstar Rating for Strategic Global Bond Fund, K share, as of Dec 31, 2021 rated against 186 World Bond Funds based on risk adjusted total return. Morningstar has awarded the Fund a Gold medal, its highest level of conviction. (Effective June 15, 2021). **3** Overall Morningstar Rating for Strategic Income Opportunities Fund, K share, as of Dec 31, 2021 rated against 295 Nontraditional Bond Funds based on risk adjusted total return. Morningstar has awarded the Fund a Gold medal, its highest level of conviction. (Effective Feb 18, 2021). **4** Overall Morningstar Rating for Low Duration, K share, as of Dec 31, 2021 rated against 543 short-term bond funds based on risk adjusted total return. Morningstar has awarded the Fund a Bronze medal. (Effective Oct 28, 2021).

02.

Strategic Income Opportunities Fund

**“ Making a little bit of
money a lot of times.”**

Rick Rieder
CIO of Global Fixed Income

USRRMH0222U/S-2036896-8/38

This regime calls for revisiting your fixed income allocation

1. Rising inflation pressure
Higher interest rates due to elevated inflation and robust growth

2. Need for flexibility and active management
Continued yield dispersion within FI demands flexibility to tactically rotate across sectors.

Source: BlackRock and Morningstar. Data as of 1/6/2022

Increasing inflation has now become more broad-based and is likely to persist for the foreseeable future

Investors should consider expanding their range of investments to capture additional yield

SIO can actively source attractive yield while managing duration risk

1. Flexible **alpha**
2. Diversified **risk**
3. Risk-aware **process**

Strategic Income Opportunities (SIO)

- Aims to generate consistent, attractive risk-adjusted returns across all market environments
- Retain the general risk profile of traditional fixed income investments

No single alpha source has contributed more than 25% of total performance since inception in SIO

Drivers of return since strategy inception (March 2010)

Characteristics	1/31/2022
Duration (yrs)	6.75 years
Yield to Worst ¹	2.11%
Risk (vol)	377 bps

Characteristics	1/31/2022
Duration (yrs)	0.92 years
SEC Yield (subsidized/unsubsidized) ²	2.05% / 2.04%
Risk (vol)	132 bps

1. Yield to worst as of 31 January 2022. Yields for fixed income indexes are yield-to-worst, calculated based on all possible call dates, reflecting the lowest potential yield that can be received without the issuer actually defaulting.

2. SEC (K Shares) 30-day SEC yield as of 31 January 2022. SIO Drivers of Return as of 31 December 2021.

The above charts represent the performance attribution of the Index and SIO from March 2010 through December 2021. March 2010 represents the strategy inception date. Spread for the Index is the excess return. Past performance is not a guide to current or future performance and should not be the sole factor of consideration when selecting a product.

SIO has the flexibility to adapt to changing bond markets

Unlike traditional core bond funds, SIO has the flexibility to actively manage **interest rate risk** and **credit risk**

Historical contribution to risk by strategy

Source: BlackRock, as of December 31st, 2021

Flexibility to invest across sectors while tactically managing duration throughout the market cycle

Tactical sector allocation, free from benchmark constraints

Flexible duration management in action (Duration band: -2 to +7 years, typically 0 - +3 years)

¹The data is since March 2010, when the Fund's investment strategy changed. Subject to change. Bottom Chart – daily data, March 2010 – January 2022.

Strong track record of competitive performance in different rate environments

Source: BlackRock, as of 30 September 2021.

Flexible process seeks to invest in the most attractive global fixed income opportunities

Price Return

Long or short positions seeking out under or over-valued securities / sectors

Yield

Long-only opportunity set designed to generate attractive income

Absolute Return

Strategies designed to exploit short-term market inefficiencies

Macro Overlay

Overlay strategy to manage duration, yield curve, currency, and risk positioning as well as to hedge tail risks

Risk Dashboard provides deep understanding of risk and return trade-offs

Helps PMs understand whether return generated is proportionate to the risks taken

- Aggregates portfolio dynamics and risk characteristics for all risk strategies aggregated in the dashboard
- Alpha-seeking and macro-seeking strategies are shown in one consistent framework
- Tracks multi-dimensional risk exposures and portfolio behavior daily enabling better decision making

QUARTER-TO-DATE THEMES

Managing rate exposure in a tightening central bank regime

- Tactically added front-end US duration while reducing top-line duration, particularly in the 7-10yr tenors and the long-end of the curve. We maintain the view of higher U.S. yields over the medium-term given the ongoing economic recovery, hawkish Fed stance, and elevated levels of inflation.
- Outside the US, we have reduced our exposure to non-US sovereigns, primarily driven by our reduction in front-end UK sovereigns, given the BoE's hawkish shift.
- Holding an elevated cash position given our view of increased volatility and US treasuries being a less effective hedge over the short term.

Tactically rotating across select spread sectors given tighter valuations

- Tactically adding to select US IG credit names, while trimming our long exposure to agency MBS given the aggressive shift in Fed policy.
- Remaining less favorable towards US HY credit given less attractive valuations as spreads reach historical tight, while preferring up the capital structure Bank Loans as they provide similar all-in yields relative to HY.

Holding a strategic barbell allocation given our view of robust growth

- Favoring select segments of the structured product market, including industrials, multi-family, hotels, and select office properties in CMBS, and Non-Agency RMBS given robust housing fundamentals.
- Modestly trimming our Emerging Market Debt exposure given concerns around a more hawkish Fed and reduced liquidity.

Strategic Income Opportunities Fund Positioning as of 1/31/2022

Key Rate Yield Curve Positioning

Fund duration changes over the year

Duration by region/country

Sector Views

US Rates

Bearish

Bullish

The US Treasury market is currently pricing in more than five rate hikes in 2022 given the Fed's continued hawkish stance at the January FOMC meeting. Our view is that there is significant upside risk driven by the higher inflation trajectory and strong labor market numbers. We expect front-end rate volatility to continue at least through the March FOMC meeting, leading us to hold a short duration bias over the medium term as rates remain an ineffective portfolio hedge, in our view.

Global Rates

Bearish

Bullish

The ECB and BOE have both taken a hawkish stance backed by strong inflation data, with the BOE raising rates by 25bps and the ECB re-assessing the pace and timing of their Asset Purchase Programme. As a result, we saw an upward pressure in UK and Euro zone rates, most notably Italian BTPs and German Bunds. This has increased our conviction in remaining short duration in Europe into the mid-year.

US Agency MBS

Bearish

Bullish

Powell's hawkish remarks at the January FOMC created a shift towards uncertainty and higher volatility in the near-term. While we slightly reduced risk, we remain patient given the positive housing backdrop and more attractive valuations at current levels relative to credit spreads, in our view. We currently prefer specified pool allocations over TBAs – prompted by the prospect of a faster taper and the longer-run implications for TBA dollar roll specialness.

IG Corporates

Bearish

Bullish

US IG credit spreads widened uniformly across sectors in January amid an accelerated policy normalization. Despite the recent repricing dynamic within the sector, we believe there is still reduced price return potential at current levels. That said, continued strong earnings data combined with a positive seasonal technical backdrop should continue to support IG corporate spreads through the beginning of 2022.

Municipals

Bearish

Bullish

Municipals underperformed in January, experiencing its worst performance since the height of the pandemic. These strong moves have recently sparked a strong pick-up in secondary market activity and a significant widening of Munis-to-Treasury ratios across the board. Additionally, the market implied tax benefit plummeted to 38%, well below the top individual tax bracket. While we continue to monitor the asset class for any potential further widening, this reset has certainly moved valuations to more attractive levels.

HY Corporates

Bearish

Bullish

US HY credit spreads widened uniformly across sectors in January amid rate volatility and a risk off move in the equity market. Despite the sell off, HY remained resilient backed by strong technicals and fundamentals. While we continue to favor high quality bank loans over HY credit as they provide similar all-in yields, we remain patient around idiosyncratic opportunities given continued dispersion across both sectors and quality buckets.

Emerging Markets

Bearish

Bullish

Performance across the EM debt complex was mixed during January driven by hawkish Fed, with select pockets of EM showing resilience. While we continue to modestly trim our allocation to EM, we remain patient around select sectors that look attractive from a valuation perspective, particularly within EM local debt.

Securitized Assets

Bearish

Bullish

We remain patient across the securitized asset complex and are focused on higher quality assets with strong levels of protection. Within CMBS, we favor multi-family down the capital stack, as well as higher-quality industrials and hotels. In addition, we hold a decent allocation to CLOs, particularly at the top of the capital structure, and Non-Agency RMBS, as we remain favorable towards US housing market fundamentals.

Important notes

Please ask your clients to consider the investment objective, risk, charge and expense of the funds carefully before investing. The prospectus and, if available, the summary prospectus contain this and other information about the fund and are available, along with information on other BlackRock funds, by calling 800-882-0052 or at www.blackrock.com. The prospectus and, if available, the summary prospectus should be read carefully before investing.

Credit Quality: The fund itself has not been rated by an independent rating agency. Credit quality ratings on underlying securities of the fund are received from S&P, Moody's and Fitch and converted to the equivalent S&P major rating category. This breakdown is provided by BlackRock and takes the median rating of the three agencies when all three agencies rate a security the lower of the two ratings if only two agencies rate a security and one rating if that is all that is provided. Unrated securities do not necessarily indicate low quality. Below investment-grade is represented by a rating of BB and below. Ratings and portfolio credit quality may change over time.

Important Risks of the Funds: The Portfolio is actively managed and its characteristics will vary. Bond values fluctuate in price so the value of your investment can go down depending on market conditions. The two main risks related to fixed income investing are interest-rate and credit risk. Typically, when interest rates rise, there is a corresponding decline in the market value of bonds. Credit risk refers to the possibility that the bond issuer will not be able to make principal and interest payments. The principal on mortgage- or asset-backed securities normally may be prepaid at any time, which reduces the yield and market value of those securities. Obligations of US gov't agencies and authorities are supported by varying degrees of credit but generally are not backed by the full faith and credit of the US gov't. Investing in derivatives entails specific risks relating to liquidity, leverage and credit that may reduce returns and increase volatility. International investing includes risks related to foreign currency, limited liquidity, less government regulation and the possibility of substantial volatility due to adverse political, economic or other developments. These risks often are heightened for investments in emerging/developing markets or smaller capital markets. Investments in non-investment-grade debt securities ("high-yield" or "junk" bonds) may be subject to greater market fluctuations and risk of default or loss of income and principal than securities in higher rating categories. The fund may actively engage in short-selling, which entails special risks. If the fund makes short sales in securities that increase in value, the fund will lose value. Any loss on short positions may or may not be offset by investing short-sale proceeds in other investments.

Stand Alone Risk: Ex-ante risk is an estimate of a portfolio's annualized standard deviation based on its exposure to 2,200 risk factors in BlackRock's proprietary risk model. Risk factors are objective, measurable characteristics of a security that historically have had explanatory power of volatility. Exposures to these risk factors are aggregated, with correlations taken into account, to arrive at an estimate of total standard deviation at the portfolio level.

Morningstar as of 12/31/2021. Rankings are based on total return excluding sales charges, independently calculated and not combined to create an overall ranking. Morningstar Category: Bank Loan for Floating Rate Income Fund; Multisector Bond for Credit Strategies Income Fund; High Yield Bond for High Yield Bond Fund; Intermediate-Term Bond for Total Return Fund, Core Bond Fund, CoreAlpha Bond, Impact Bond and U.S. Mortgage Fund; Nontraditional Bond for Strategic Income Opportunities Fund and Emerging Markets Flexible Dynamic Bond Fund; Short-Term Bond for Low Duration Bond Fund; Intermediate Government for U.S. Government Bond and GNMA Fund; Inflation-Protected Bond for Inflation Protected Bond Fund; Muni National Intermediate for National Municipal Fund and Strategic Municipal Opportunities Fund; High Yield Muni for High Yield Municipal Fund; Muni Pennsylvania for Pennsylvania Municipal Bond Fund; Muni New York Intermediate for New York Municipal Opportunities Fund; Muni New Jersey for New Jersey Municipal Bond Fund; Muni California Intermediate for California Municipal Opportunities Fund; World Bond for Strategic Global Bond; Muni National Short for Short-Term Municipal Fund; Emerging Markets Bond for Emerging Markets Bond Fund; Emerging-Markets Local-Currency Bond for Emerging Markets Local Currency Bond Fund. **California Municipal Opportunities Fund** was ranked 1yr, 4/67; 3yr, 13/66; 5yr, 4/64; 10yr, 5/61. **Core Bond Fund** was ranked 1yr, 182/438; 3yr, 100/414; 5yr, 123/389; 10yr, 72/353. **CoreAlpha Bond Fund** was ranked 1yr, 330/438; 3yr, 119/414; 5yr, 72/389; 10yr, 141/353. **Income Fund** was ranked 1yr, 312/344; 3yr, 136/287; 5yr, 103/263; 10yr, 52/180. **Sustainable Emerging Markets Flexible Dynamic Bond Fund** was ranked 1yr, 330/332; 3yr, 185/311; 5yr, 270/295; 10yr, 101/169. **Floating Rate Income Fund** was ranked 1yr, 149/240; 3yr, 51/239; 5yr, 64/231; 10yr, 48/185. **GNMA Fund** was ranked 1yr, 61/243; 3yr, 123/241; 5yr, 134/239; 10yr, 55/232. **High Yield Bond Fund** was ranked 1yr, 158/689; 3yr, 109/659; 5yr, 71/628; 10yr, 43/504. **High Yield Municipal Fund** was ranked 1yr, 5/200; 3yr, 16/199; 5yr, 21/185; 10yr, 25/139. **Inflation Protected Bond Fund** was ranked 1yr, 63/211; 3yr, 24/208; 5yr, 32/200; 10yr, 40/161. **Low Duration Bond Fund** was ranked 1yr, 289/615; 3yr, 374/587; 5yr, 296/543; 10yr, 138/429. **National Municipal Fund** was ranked 1yr, 68/300; 3yr, 76/278; 5yr, 81/268; 10yr, 25/218. **New Jersey Municipal Bond Fund** was ranked 1yr, 18/49; 3yr, 16/49; 5yr, 12/49; 10yr, 11/49. **New York Municipal Opportunities Fund** was ranked 1yr, 2/53; 3yr, 14/53; 5yr, 4/52; 10yr, 2/51. **Pennsylvania Municipal Bond Fund** was ranked 1yr, 11/53; 3yr, 22/53; 5yr, 19/53; 10yr, 13/53. **Short-Term Municipal Fund** was ranked 1yr, 170/224; 3yr, 172/222; 5yr, 167/209; 10yr, 145/175. **Strategic Municipal Opportunities Fund** was ranked 1yr, 8/300; 3yr, 118/278; 5yr, 26/268; 10yr, 16/218. **Strategic Income Opportunities Fund** was ranked 1yr, 175/332; 3yr, 74/311; 5yr, 58/295; 10yr, 34/169. **Strategic Global Bond Fund** was ranked 1yr, 25/207; 3yr, 9/201; 5yr, 14/186; 10yr, 9/175. **Total Return Fund** was ranked 1yr, 283/607; 3yr, 204/594; 5yr, 211/557; 10yr, 70/490. **U.S. Government Bond Fund** was ranked 1yr, 68/243; 3yr, 24/241; 5yr, 31/239; 10yr, 36/232. **U.S. Mortgage Fund** was ranked 1yr, 146/344; 3yr, 210/287; 5yr, 199/263; 10yr, 147/180.

Important notes (continued)

From slide 7: K Share Class

Lipper Fund Classification Awards: The currency for the calculation corresponds to the currency of the country for which the awards are calculated and relies on monthly data. Classification averages are calculated with all eligible share classes for each eligible classification. The calculation periods extend over 36, 60, and 120 months. The highest Lipper Leader for Consistent Return (Effective Return) value within each eligible classification determines the fund classification winner over three, five, or 10 years. For a detailed explanation, please review the Lipper Leaders methodology document on lipperalpha.financial.thomsonreuters.com/lipper. Fund classification awards are given to the company that has the day-to-day responsibility of investing and monitoring the assets under management within the fund's portfolio in order to achieve the investment objectives of the fund. This company is also referred to as a portfolio management company or investment advisor. The award goes to the fund management company in case that no such company has been appointed or several such companies share the task.

The Morningstar Analyst Rating™ is not a credit or risk rating. It is an evaluation performed by Morningstar's Manager Research Group based on five pillars: process, performance, people, parent, and price. This evaluation determines how they believe funds are likely to perform relative to a benchmark over the long term on a risk-adjusted basis. They consider quantitative and qualitative factors. For active funds, an Analyst Rating of Gold, Silver or Bronze reflects the expectation that the fund will be able to deliver positive alpha net of fees relative to the standard benchmark index assigned to the Morningstar category. The Analyst Ratings are overseen by an Analyst Rating Committee and are monitored and reevaluated at least every 14 months. For more detailed information about Morningstar's Analyst Rating, including its methodology, please go to <https://www.morningstar.com/content/dam/marketing/shared/pdfs/Research/962834.pdf>. **The Morningstar Analyst Rating (i) should not be used as the sole basis in evaluating a fund, (ii) involves unknown risks and uncertainties which may cause the Manager Research Group's expectations not to occur or to differ significantly from what they expected, and (iii) should not be considered an offer or solicitation to buy or sell the fund.**

The Morningstar Rating™ for funds, or "star rating", is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. It is calculated based on a Morningstar Risk-Adjusted Return measure (excluding any applicable sales charges) that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. The **Total Return Fund** was rated against the following numbers of US domiciled funds: 543, 464, and 343 over the 3, 5 and 10 year period, respectively. With respect to these funds and time periods, the fund received a rating of 4, 3, and 4 stars. Other classes may have different performance characteristics. The **Strategic Income Fund** was rated against the following numbers of US domiciled funds: 269, 250, and 94 over the 3, 5 and 10 year period, respectively. With respect to these funds and time periods, the fund received a rating of 4, 4, and 4 stars. Other classes may have different performance characteristics. The **Low Duration Bond Fund** was rated against the following numbers of US domiciled funds: 514, 548, and 300 over the 3, 5 and 10 year period, respectively. With respect to these funds and time periods, the fund received a rating of 3, 3, and 4 stars. Other classes may have different performance characteristics. The **Strategic Global Bond Fund** was rated against the following numbers of US domiciled funds: 180, 169, and 115 over the 3, 5 and 10 year period, respectively. With respect to these funds and time periods, the fund received a rating of 4, 4, and 5 stars. Other classes may have different performance characteristics.

BlackRock Strategic Income Opportunities Portfolio

Investment Objective	Seeks total return that is consistent with preservation of capital
Eligible Investments	Broad range of global fixed income instruments and derivatives, including among others US Treasuries, agencies, credit, MBS, ABS, CMBS, high yield, EMD and non-USD
Constraints	<p>Include, among others:</p> <ul style="list-style-type: none"> • Duration band -2 years to +7 years; typical range is 0-3 years • CDOs < 15% net assets, of which CLOs < 10% of net assets • Short up to 5% of market value of total assets (shorting TBAs and short sales “against the box” not restricted by this limit • 40 Act Leverage < 33%
Historical Ranges¹	<p>Since inception the Fund maintained</p> <ul style="list-style-type: none"> • Below IG Structured Products < 25% • FX < 30% (Defined as net exposure to USD) • HY Corporates < 40% • EMD < 25% (IMF Emerging Market country definitions) • Equity typically < 10% of net assets • Tier IV Liquidity < 20% (as defined by BLK liquidity scoring) • Ex-ante risk < 700bps
Expense Ratio (K Share Class: BSIKX)	<p>Total: 0.76%</p> <p>Net including investment related expenses: 0.76%</p>
Strategy Inception²	5 March 2010
AUM	<p>Fund AUM: \$45.45 Billion</p> <p>Strategy AUM: \$58.16 Billion</p>
Number of Holdings	4,541
Liquidity	Daily
Key highlights	<ul style="list-style-type: none"> • Duration management flexibility designed to help protect investors in a rising interest rate environment • Broad flexibility to invest across the global FI universe leveraging the BlackRock global platform

Info as of 1/31/22 and subject to change.

¹ Historical ranges represent past investment exposures and may not be representative of future allocations

² Strategy inception for the unconstrained strategy. Actual inception date for the fund is 2/5/2008.

Net, excluding investment related expenses is 0.52%.

Net operating expenses exclude investment interest expenses, acquired fund fees, if any, and certain other fund expenses net of all waivers and reimbursements. BlackRock has agreed contractually to waive or reimburse certain fees and expenses until 6/30/2023. Contractual waivers terminable upon 90 days notice by the fund's independent trustees or majority vote of outstanding fund securities.

Biographies of key investment professionals

Rick Rieder – BlackRock’s Chief Investment Officer of Global Fixed Income

Rick Rieder, Managing Director, is BlackRock’s Chief Investment Officer of Global Fixed Income, Head of the Global Allocation Investment Team in the Multi-Asset Strategies Group, a member of BlackRock’s Global Operating Committee and Chairman of the firm-wide BlackRock Investment Council.

Before joining BlackRock in 2009, Mr. Rieder was President and Chief Executive Officer of R3 Capital Partners. He served as Vice Chairman and member of the Borrowing Committee for the U.S. Treasury and is currently a member of the Federal Reserve Bank of New York’s Investment Advisory Committee on Financial Markets.

Mr. Rieder currently serves on the Alphabet/Google Investment Advisory Committee and the UBS Research Advisory Board. He was awarded the Global Unconstrained Fixed Income Manager of the Year for 2015 by Institutional Investor, was nominated for Fixed Income Manager of the Year by Institutional Investor for 2014 and was inducted into the Fixed Income Analysts Society Fixed Income Hall of Fame in 2013.

From 1987 to 2008, Mr. Rieder was with Lehman Brothers, most recently as head of the firm’s Global Principal Strategies team, a global proprietary investment platform. He was also global head of the firm’s credit businesses, Chairman of the Corporate Bond and Loan Capital Commitment Committee, and a member of the Board of Trustees for the corporate pension fund. Before joining Lehman Brothers, Mr. Rieder was a credit analyst at SunTrust Banks in Atlanta.

Mr. Rieder earned a BBA degree in Finance from Emory University in 1983 and an MBA degree from The Wharton School of the University of Pennsylvania in 1987. He is a member of the board of Emory University, Emory’s Business School, and the University’s Finance Committee, and is the Vice Chairman of the Investment Committee. Mr. Rieder is founder and chairman of the business school’s BBA investment fund and community financial literacy program.

Mr. Rieder serves as Chairman of the Board of North Star Academy’s thirteen Charter Schools in Newark, New Jersey and is the Founder and Chairman of the Board of Graduation Generation Public School Collaboration in Atlanta. He is a Trustee for the US Olympic Foundation, and is on the International Advisory Council and Board of Advisors for the Hospital for Special Surgery. He serves on the National Leadership Council of the Communities in Schools Educational Foundation and on the board of Big Brothers/Big Sisters of Newark and Essex County. Mr. Rieder was honored at the Choose Success Awards ceremony in Atlanta in 2015 for his dedication to public education in Atlanta through CIS and Graduation Generation.

Bob Miller – Head of Americas Fundamental Fixed Income within Global Fixed Income

Bob Miller, Managing Director, is head of Americas Fundamental Fixed Income within BlackRock’s Global Fixed Income group and a member of the Global Fixed Income Executive Committee. He is a portfolio manager of BlackRock’s Core Bond, Total Return, and Strategic Income Opportunities Funds.

Prior to joining BlackRock in 2011, Mr. Miller was a co-founder and partner at the Round Table Investment Management Company, a multi-strategy, research-based investment company, where he managed a global macro strategy. Previously, Mr. Miller spent 20 years at Bank of America, where he served in a variety of roles, most recently as senior portfolio manager for the bank’s proprietary multi-asset investment portfolio. Mr. Miller managed global interest rate, credit and foreign exchange portfolios during his tenure at Bank of America.

Mr. Miller is a former Trustee of Davidson College where he served as Chair of the Investment Committee, member of the Athletics Committee and member of the Presidential Search Committee. He currently serves as an advisor to the Investment Committee and is also actively involved with the Davidson July Experience program. Mr. Miller is a former Trustee and past Chairman of the Board at Trinity Episcopal School in Charlotte, NC. He currently serves as an advisor to the TES Investment Committee. He previously served as an advisor to the Investment Committee of St. Mary’s School in Raleigh, NC. Mr. Miller is a member of the Chairmen’s Circle with the Central Park Conservancy in New York City.

He earned a BA degree in economics from Davidson College.

Biographies of key investment professionals

David Rogal – Member of the Multi-Sector Mutual Fund Team within BlackRock's Global Fixed Income Group.

David Rogal, Managing Director, is a member of the Multi-Sector Retail & Rates team within BlackRock's Americas Fixed Income Group. He is a portfolio manager on the Multi-Sector Mutual Fund Team.

Mr. Rogal moved to his current role in 2009. Previously, he was a member of BlackRock's Multi-Asset Portfolio Strategies (MAPS) group. Within MAPS, he was part of the Strategic Advice Service team where he focused on various research and analytical projects, and was responsible for asset allocation analysis and liability-based portfolio structuring for taxable clients and prospects. Mr. Rogal began his career at BlackRock in 2006 as an analyst in the Financial Institutions Group.

Mr. Rogal earned a BA degree, *Phi Beta Kappa*, in economics and genetics from Cornell University in 2006.

Investment Performance Review

December 31, 2021

We are proud to announce that ACG has again been named a Greenwich Associates Quality Leader - recognized as one of the top consultants in the industry. This award is based on a number of factors, and a culmination of extensive nationwide interviews with institutional investors. We are grateful to have received this honor for three consecutive years.

Methodology and Disclosure: Between July and October 2020, Coalition Greenwich (previously known as Greenwich Associates), conducted in-person and phone interviews and online surveys with 856 professionals at 704 of the largest tax-exempt funds in the United States, including corporate and union funds, public funds, endowments and foundations, insurance general accounts, and healthcare organizations, with either pension or investment pool assets greater than \$150 million. Study participants were asked to provide quantitative and qualitative evaluations of their asset managers and investment consultants, including qualitative assessments of those firms soliciting their business and detailed information on important market trends. ACG is one of three firms recognized in the mid-size investment consultant category. The ratings may not be representative of any one client's experience with ACG; rather they are representative of those clients that chose to participate in the survey. The results are not indicative of ACG's future performance. ACG does not pay to have its clients participate in the study.

Definitions of Statistical Measures

Alpha - the annualized difference between the manager's actual return and the manager's expected return given its relative risk vs. the benchmark (which is represented by beta, a measure that tracks volatility to an index).

Batting Average - a measure used to quantify a manager's ability to meet or beat a benchmark. A manager who outperforms the benchmark 20 out of a possible 40 times has a batting average of 50.

Beta - measures the portfolio's sensitivity of returns to market movements represented by the primary benchmark.

Down Capture - demonstrates the ratio of the portfolio's average returns relative to the benchmark in periods in which the benchmark had a negative return. For instance, a down-capture of 96% indicates that, on average, the portfolio is down 96% when the benchmark is down 100%. Lower portfolio down-capture is preferred.

R Squared - the amount of the manager's return that can be explained by the benchmark. A R Squared of 100 indicates a perfect correlation, while a R Squared of 0 indicates no correlation at all.

Sharpe Ratio - a measure of return per unit of risk. Higher sharpe ratios are preferred while negative ratios are generally meaningless and cannot be used for comparison purposes.

Standard Deviation - a measure of the portfolio's volatility. A large standard deviation relative to the benchmark represents volatile portfolio returns.

Tracking Error - a measure that reports the difference between the return of a manager that is received and that of a benchmark that the manager is attempting to track.

Up Capture - demonstrates the ratio of the portfolio's average returns relative to the benchmark in periods in which the benchmark had a positive return. For instance, an up-capture of 96% indicates that, on average, the portfolio is up 96% when the benchmark is up 100%. Higher portfolio up-capture is preferred.

***Oklahoma Municipal Retirement Fund
Equity Long/Short Portfolio Education & Update***

February 24, 2022

We are proud to announce that ACG has again been named a Greenwich Associates Quality Leader – recognized as one of the top consultants in the industry. This award is based on a number of factors, and a culmination of extensive nationwide interviews with institutional investors. We are grateful to have received this honor for three consecutive years.

Methodology and Disclosure: *Between July and October 2020, Coalition Greenwich (previously known as Greenwich Associates), conducted in-person and phone interviews and online surveys with 856 professionals at 704 of the largest tax-exempt funds in the United States, including corporate and union funds, public funds, endowments and foundations, insurance general accounts, and healthcare organizations, with either pension or investment pool assets greater than \$150 million. Study participants were asked to provide quantitative and qualitative evaluations of their asset managers and investment consultants, including qualitative assessments of those firms soliciting their business and detailed information on important market trends. ACG is one of three firms recognized in the mid-size investment consultant category. The ratings may not be representative of any one client's experience with ACG; rather they are representative of those clients that chose to participate in the survey. The results are not indicative of ACG's future performance. ACG does not pay to have its clients participate in the study.*

Equity Long/Short Education

Sample Long Only vs. Long/Short Transaction

Long Only Strategy

Long/Short Strategy

Sample Short Transaction

The amount the price can go up is unlimited - thus, the potential loss is limited only by the investor's pain threshold and the brokerage firm's tolerance for loss.

The price can only go to zero, thus the amount the investor can profit is limited by the initial amount they collect.

	Annualized Return	Standard Deviation
HFRI FOF Strategic	8.3%	8.2%
MSCI ACWI	7.9%	15.2%

- Since inception (1990), long/short strategies have delivered **greater returns with significantly less risk (volatility)**
- Historically, equity long/short strategies have added significant value not only in market downturns but also in “normal” market environments where returns are modestly positive (0% to 9%)
- It was **typically in** the most **extreme market advances** (those greater than 9%) where **equity long/short** strategies **lagged** the long only benchmark

**Rolling 12-Month Returns
(1990 – December 2021)**

*Average performance of the indices during specific periods, based on ACWI performance.

Lowest Quality (C&D ranked companies) minus High Quality (A+ ranked companies); Trailing 12-Month Spread

For the Period of 1990 to 9/30/21, trailing 12 month spread of returns

Source: Atlanta Capital

Biotech (XBI) minus S&P 500 (SPX) performance difference

(2006-2021 YTD)

The current period is the greatest historical dispersion between performance of the biotech index and the S&P. In each of the prior periods when the reversal occurred it was sharp and quick

K2 Equity Long/Short Portfolio

To cover the Equity Long/Short asset class an investor needs a **portfolio of multiple managers**- either through a fund of funds investment or through building a portfolio of direct investments.

Diversification Guidelines

Manager Diversification
Regional Diversification: Diversify by Country and Currency
Sector/Industry Diversification
Market Cap Diversification

Portfolio Construction

Core Position - Manager target is typically up to 20% of the hedged equity portfolio (globally diversified)
Satellite Position - Manager target is typically 5% to 15% of the hedged equity portfolio (moderately diversified)
Emerging Position - Manager target is typically up to 10% of the hedged equity portfolio (niche/concentrated/emerging)

Net Exposure equals Long Positions minus Short Positions. **Gross Exposure** equals Long Positions plus Short Positions.

Because portfolios are customizable to client needs, when implementing K2 can create guidelines that are used to monitor any desired portfolio parameters.

Diversification Guidelines

Manager Diversification

Regional Diversification: Diversify by Country and Currency

Sector/Industry Diversification

Market Cap Diversification

Parameter	Guidelines/ Target Ranges
Number of Funds	Minimum 8, Maximum 20
Allocation per Fund	Minimum 5%, Maximum 20%
Total Allocation per Type of Fund	Core 40 to 80%, Satellite 20 to 60%, Emerging 0 to 20%
Diversification	Diversify by region, sector, market cap, idea generation

K2 Equity Long/Short Portfolio Construction and Guidelines

When investing in the equity long/short asset class ACG recommends a **portfolio targeting 2/3rds of the risk of the global equity market**. The target range of the portfolio will be between 50% and 80% net exposure.

Numbers in parenthesis are the current net exposure. The ellipsicals illustrate the historical range of net exposure for each manager.

Core: typically fund is diversified by sector and /or region; **Satellite:** typically fund is concentrated and/or focused by sector/region or strategy; **Emerging:** typically fund has a short track record or small dollar amount.

Net Exposure equals Long Positions minus Short Positions. **Gross Exposure** equals Long Positions plus Short Positions.

K2 Equity Long/Short Portfolio Construction and Guidelines

When investing in the long/short equity asset class K2 implements a portfolio of multiple managers that **considers the following guidelines** in constructing a diversified portfolio.

Parameter	Guidelines/ Target Ranges	Current Portfolio	Proposed Portfolio
Number of Funds	Minimum 8, Maximum 20	11	11
Allocation per Fund	Minimum 5%, Maximum 20%	Within target range	Within target range
Total Allocation per Type of Fund	Core 40 to 80% Satellite 20 to 60% Emerging 0 to 20%	Core 53% Satellite 38% Emerging 9%	Core 52% Satellite 38% Emerging 10%
Diversification	Diversify by region, sector, market cap, idea generation	Diversified by region, sector, market cap, idea generation	Diversified by region, sector, market cap, idea generation

Core: typically fund is diversified by sector and /or region; **Satellite:** typically fund is concentrated and/or focused by sector/region or strategy; **Emerging:** typically fund has a short track record or small dollar amount

Net Exposure equals long positions minus short positions. **Gross Exposure** equals long positions plus short positions.

K2 Equity Long/Short Portfolio - Downside Protection Trailing 5 Year

In the trailing five years, the OMRF Equity Long/Short composite protected in 13 of the 16 negative months incurred by the MSCI ACWI. The three periods which protection was not provided were in the recent market environment where fundamentals did not matter.

Since investing in a portfolio of direct long/ short equity managers (3/14), the annualized compounded return of the OMRF Equity Long/Short composite declined only 62% of the annualized compounded MSCI ACWI decline.

Accordingly, ACG does not itself endorse or guarantee, and does not itself assume liability whatsoever for, the accuracy or reliability of any third party data or the financial information contained herein.

Certain information herein constitutes forward-looking statements, which can be identified by the use of terms such as "may", "will", "expect", "anticipate", "project", "estimate", or any variations thereof. As a result of various uncertainties and actual events, including those discussed herein, actual results or performance of a particular investment strategy may differ materially from those reflected or contemplated in such forward-looking statements. As a result, you should not rely on such forward-looking statements in making investment decisions. ACG has no duty to update or amend such forward-looking statements.

The information presented herein is for informational purposes only and is not intended as an offer to sell or the solicitation of an offer to purchase a security.

Please be aware that there are inherent limitations to all financial models, including Monte Carlo Simulations. Monte Carlo Simulations are a tool used to analyze a range of possible outcomes and assist in making educated asset allocation decisions. Monte Carlo Simulations cannot predict the future or eliminate investment risk. The output of the Monte Carlo Simulation is based on ACG's capital market assumptions that are derived from proprietary models based upon well-recognized financial principles and reasonable estimates about relevant future market conditions. Capital market assumptions based on other models or different estimates may yield different results. ACG expressly disclaims any responsibility for (i) the accuracy of the simulated probability distributions or the assumptions used in deriving the probability distributions, (ii) any errors or omissions in computing or disseminating the probability distributions and (iii) and any reliance on or uses to which the probability distributions are put.

The projections or other information generated by ACG regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results. Judgments and approximations are a necessary and integral part of constructing projected returns. Any estimate of what could have been an investment strategy's performance is likely to differ from what the strategy would actually have yielded had it been in existence during the relevant period. The source and use of data and the arithmetic operations used for calculating projected returns may be incorrect, inappropriate, flawed or otherwise deficient.

Past performance is not indicative of future results. Given the inherent volatility of the securities markets, you should not assume that your investments will experience returns comparable to those shown in the analysis contained in this report. For example, market and economic conditions may change in the future producing materially different results than those shown included in the analysis contained in this report. Any comparison to an index is for comparative purposes only. An investment cannot be made directly into an index. Indices are unmanaged and do not reflect the deduction of advisory fees.

This report is distributed with the understanding that it is not rendering accounting, legal or tax advice. Please consult your legal or tax advisor concerning such matters. No assurance can be given that the investment objectives described herein will be achieved and investment results may vary substantially on a quarterly, annual or other periodic basis. There is no representation or warranty as to the current accuracy of, nor liability for, decisions based on such information.

Oklahoma Municipal Retirement Fund
Investment Committee Meeting
US Small/Mid Cap Equity Discussion

February 24, 2022

We are proud to announce that ACG has again been named a Greenwich Associates Quality Leader – recognized as one of the top consultants in the industry. This award is based on a number of factors, and a culmination of extensive nationwide interviews with institutional investors. We are grateful to have received this honor for three consecutive years.

Methodology and Disclosure: *Between July and October 2020, Coalition Greenwich (previously known as Greenwich Associates), conducted in-person and phone interviews and online surveys with 856 professionals at 704 of the largest tax-exempt funds in the United States, including corporate and union funds, public funds, endowments and foundations, insurance general accounts, and healthcare organizations, with either pension or investment pool assets greater than \$150 million. Study participants were asked to provide quantitative and qualitative evaluations of their asset managers and investment consultants, including qualitative assessments of those firms soliciting their business and detailed information on important market trends. ACG is one of three firms recognized in the mid-size investment consultant category. The ratings may not be representative of any one client's experience with ACG; rather they are representative of those clients that chose to participate in the survey. The results are not indicative of ACG's future performance. ACG does not pay to have its clients participate in the study.*

- OkMRF's Defined Benefit Plan (DB Plan) has a diversified asset allocation across stocks, bonds and real assets. **The DB Plan implements the investment program with specialist managers** in each segment of the portfolio.
- The DB Plan's **current target allocation to US small/mid cap equity is 10%**. This allocation is implemented with **River Road** (US small cap value) and **TimesSquare** (US small/mid cap growth).
- **River Road** has managed the DB Plan's US small cap value sleeve since April 2016, and **TimesSquare** has managed the US small/mid cap growth sleeve since April 2009.
- **More recently, the broader market environment has created headwinds** for each strategy, resulting in some relative underperformance for each benchmark. **Longer-term, both strategies have been additive** to the overall DB Plan's performance.
- Today's discussion will review the broader US equity market and each US small/mid cap strategy in more detail. **ACG will be looking for further direction from the Board on any potential next steps.**

Broad US Equity Market Characteristics

Style boxes provide a way to segregate equity managers' strategies by market capitalization and across investment styles.

Market capitalization = price x shares outstanding

Value

Value managers emphasize current stock value compared to earnings potential. They look for stocks whose prices are depressed relative to current earnings or to assets.

Characteristics

- Looking to buy \$1.00 worth of company for 70 cents
- Price paid for stock very important
- Longer holding period
- Higher dividend yield
- Less volatility

Growth

Growth managers invest in companies which have **strong growth in earnings**, with the hope that past earnings' momentum will continue into the future.

Characteristics

- Looking for companies which have tremendous opportunities to expand profits
- Price paid for stock not as important
- High turnover
- Lower dividend yield
- Greater volatility

- **Growth** tends to be supported by a momentum and trend-oriented environment.
- **Value** tends to be supported by GDP growth, higher rates and inflation given higher weights to cyclical-oriented sectors.
- Three ways to support a **reversal of the longer-term Growth leadership**:
 - **Catalyst 1**: Reversion to the mean given magnitude of underperformance relative to Growth.
 - **Catalyst 2**: If economy continues to recover, Value should outperform due to higher allocation to cyclical stocks.
 - **Catalyst 3**: If rates rise, Value should outperform relative to Growth amidst the higher borrowing costs for companies.

Observations:

- **From 2000 through 2011, the rolling 10-year return was higher for Value** across small cap, mid cap and large cap indices.
- **From 2012 through 2021, the rolling 10-year return was higher for Growth** across small cap, mid cap and large cap indices.
- Alpha generated from **active management is generally higher in more normalized** market environments. **More speculative market environments (>10% returns) tend to be difficult** for active managers with a bottom-up, fundamental process.

For the Periods Ending December 31, 2021

LCV and SCV similar performance over the long-term.

Longer-term, large differential between SCV and LCG. SCG leads SCV, but large difference between LCG and SCG.

OkMRF Defined Benefit Plan – Current US Small/Mid Cap Managers

	US Equity		
	Value	Core	Growth
Large Cap		 <p>SSgA S&P 500 Index Fund</p>	
Mid Cap			 <p>TimesSquare</p>
Small Cap	 <p>River Road</p>		

- **Due to River Road's style, the strategy has generally underperformed in the first year of economic expansion** (such as 2021) but starts to outperform as the economic cycle matures.
- On the growth side, **TimesSquare has historically invested in less cyclical companies** that have been out-of-favor within sectors such as Information Technology and Consumer Discretionary, which have been strong contributors to overall market performance.
- When comparing TimesSquare's small/mid cap growth strategy (DB Plan) to TimesSquare's small cap growth strategy (DC Plan), **the relative weightings in Healthcare** have been the major difference in relative performance results (versus each benchmark). That said, **absolute performance is very similar between the two mandates**.

P/E (1 Yr Trailing)	15.48	12.12
Dividend Yield (%)	0.88	1.52

Commentary

The Small Cap Value strategy outperformed the Russell 2000 Value Index by 336 bps (+7.72% vs. +4.36%) in the fourth quarter. Following the struggles in the market rally, the strategy trails the index by 549 bps (+22.78% vs +28.27%) on a one-year basis, albeit a strong absolute return. Still, the strategy leads longer term by 68 bps (+18.68% vs +17.99%) on a three-year basis and by 321 bps (+12.28% vs +9.07%) on a five-year basis. Sector allocation and stock picking both contributed to the relative upside in the quarter. The team's selections were favorable in the majority of sectors with Industrials serving as the largest contributor. On a full-year basis, the team's selections dragged on performance but all sectors posted positive absolute returns. The biggest drag for the year came from the cash position that averaged north of 7% during the strong market rally. The cash position started to decline coming out of the end of the year as the team took advantage of the market dislocation.

* The statistics and commentary are reflective of River Road's Small Cap Value Composite and not OkMRF's actual experience in the strategy. Statistics are calculated using gross of fee return data.

Small/Mid Cap Growth*

For the Period Ending December 31, 2021

Performance (%)		
	Strategy	Benchmark
1 Year Return	5.27	5.04
4Q-21	1.76	0.20
3Q-21	-0.79	-3.53
2Q-21	4.85	6.04
1Q-21	-0.55	2.49

Characteristics		
	Strategy	Benchmark
Wtd Avg Mkt Cap (\$Mil)	8,473	8,115
P/E (1 Yr Trailing)	38.03	26.08
Dividend Yield (%)	0.31	0.37

Commentary

The strategy outperformed the Russell 2500 Growth Index by 156 bps (+1.76% vs +0.20%) during the fourth quarter of 2021. The strategy sits ahead of the benchmark by 23 bps (+5.27% vs +5.04%) on a one-year basis and 174 bps (+26.83% vs +25.09%) on a three-year basis, but lags by 29 bps (+17.36% vs +17.65%) on a five-year basis, albeit a solid absolute return. The lion's share of outperformance resulted from strong stock picking while sector allocation provided a slight tailwind in the quarter. Selections were additive across the board but shined the brightest within Healthcare where the team largely avoided the Biotech sell-off which drove the bulk of pains within the sector. The sector also served as the largest contributor to relative upside in 2021 but was offset in part by pains in Consumer Discretionary and Communication Services. Generally, the strategy outperformed during the year when Quality names were in favor, a dynamic not present through much of 2020 and early 2021.

* The statistics and commentary are reflective of TimesSquare's Small/Mid Cap Growth Composite and not OkMRF's actual experience in the strategy. Statistics are calculated using gross of fee return data.

Potential Next Steps

Potential Next Steps

- **Remain with the current US small/mid cap equity manager(s)** despite some of the relative underperformance.
- **Adjust mandate(s) of existing US small/mid cap equity manager(s)** to better align with OkMRF's goals and objectives.
- **Hold in-person interviews with potential replacement US small/mid cap equity managers** at a future Investment Committee/Board Meeting (if the Board desires).

Monte Carlo Simulations are a tool used to analyze a range of possible outcomes and assist in making educated asset allocation decisions. Monte Carlo Simulations cannot predict the future or eliminate investment risk. The output of the Monte Carlo Simulation is based on ACG's capital market assumptions that are derived from proprietary models based upon well-recognized financial principles and reasonable estimates about relevant future market conditions. Capital market assumptions based on other models or different estimates may yield different results. ACG expressly disclaims any responsibility for (i) the accuracy of the simulated probability distributions or the assumptions used in deriving the probability distributions, (ii) any errors or omissions in computing or disseminating the probability distributions and (iii) any reliance on or uses to which the probability distributions are put.

The projections or other information generated by ACG regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results. Judgments and approximations are a necessary and integral part of constructing projected returns. Any estimate of what could have been an investment strategy's performance is likely to differ from what the strategy would actually have yielded had it been in existence during the relevant period. The source and use of data and the arithmetic operations used for calculating projected returns may be incorrect, inappropriate, flawed or otherwise deficient.

Past performance is not indicative of future results. Given the inherent volatility of the securities markets, you should not assume that your investments will experience returns comparable to those shown in the analysis contained in this report. For example, market and economic conditions may change in the future producing materially different results than those shown included in the analysis contained in this report. Any comparison to an index is for comparative purposes only. An investment cannot be made directly into an index. Indices are unmanaged and do not reflect the deduction of advisory fees.

This report is distributed with the understanding that it is not rendering accounting, legal or tax advice. Please consult your legal or tax advisor concerning such matters. No assurance can be given that the investment objectives described herein will be achieved and investment results may vary substantially on a quarterly, annual or other periodic basis. There is no representation or warranty as to the current accuracy of, nor liability for, decisions based on such information.

February 14, 2022

Board of Trustees
Oklahoma Municipal Retirement Fund
1001 NW 63rd Street, Suite 260
Oklahoma City, OK 73116

We are pleased to confirm our understanding of the services we are to provide Oklahoma Municipal Retirement Fund (the “Fund”) for the years ending June 30, 2022, 2023, 2024, 2025, and 2026.

Audit Scope and Objectives

We will audit the financial statements of the Fund which comprise the statements of fiduciary net position (Defined Benefit and Defined Contribution Plans) as of June 30, 2022, 2023, 2024, 2025, and 2026, and the related statements of fiduciary net position (Defined Benefit and Defined Contribution Plans) for the years then ended, and the related notes to the financial statements. Accounting standards generally accepted in the United States (GAAP) provide for certain required supplementary information (RSI), such as management’s discussion and analysis (MD&A), to supplement the Fund’s financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the Fund’s RSI in accordance with auditing standards generally accepted in the United States (GAAS). These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by GAAP and will be subjected to certain limited procedures, but will not be audited:

1. Management’s Discussion and Analysis
2. Schedule of Investment Returns

Audit Scope and Objectives, Continued

We have been engaged to report on supplementary information other than RSI that accompanies the Fund's financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS and we will provide an opinion on it in relation to the financial statements as a whole.

- Analysis of Fund Ownership for Defined Contribution Plans

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and issue an auditors' report that includes our opinion about whether your financial statements are fairly presented, in all material respects, in conformity with GAAP, and report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as whole. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the financial statements. The objectives also include reporting on internal control over financial reporting and compliance with provisions of laws, regulations, contracts, and award agreements, noncompliance with which could have a material effect on the financial statements in accordance with *Government Auditing Standards*.

Auditors' Responsibilities for the Audit of the Financial Statements

We will conduct our audit in accordance with GAAS; the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and will include tests of accounting records and other procedures we consider necessary to enable us to express such opinion. As part of an audit in accordance with GAAS and *Government Auditing Standards*, we exercise professional judgment and maintain professional skepticism throughout the audit.

Auditors' Responsibilities for the Audit of the Financial Statements, Continued

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management. We will also evaluate the overall presentation of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. We will plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the Fund or to acts by management or employees acting on behalf of the Fund. Because the determination of waste and abuse is subjective, *Government Auditing Standards* do not expect auditors to perform specific procedures to detect waste or abuse in financial audits nor do they expect auditors to provide reasonable assurance of detecting waste or abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements or noncompliance may not be detected by us, even though the audit is properly planned and performed in accordance with GAAS and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform the appropriate level of management of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

We will also conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and direct confirmation of receivables and certain assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We may also request written representations from your attorneys as part of the engagement.

Audit Procedures—Internal Control

We will obtain an understanding of the Fund and its environment, including internal control relevant to the audit, sufficient to identify and assess the risks of material misstatement of the financial statements, whether due to error or fraud, and to design and perform audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. Accordingly, we will express no such opinion. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and *Government Auditing Standards*.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the Fund's compliance with provisions of applicable laws, regulations, contracts, and agreements, including grant agreements. However, the objective of those procedures will not be to provide an opinion on overall compliance, and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

Other Services

We will also assist in preparing the Fund's financial statements, related notes, and supplementary information in conformity with GAAP based on information provided by you. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*. We will perform the services in accordance with applicable professional standards. The other services are limited to the financial statements, related notes, and supplementary information services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform a procedure or take an action that could be construed as assuming management responsibilities.

Responsibilities of Management for the Financial Statements

Our audit will be conducted on the basis that you acknowledge and understand your responsibility for (1) designing, implementing, establishing, and maintaining effective internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, and for evaluating and monitoring ongoing activities to help ensure that appropriate goals and objectives are met; (2) following laws and regulations; (3) ensuring that there is reasonable assurance that government programs are administered in compliance with compliance requirements; and (4) ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles; for the preparation and fair presentation of the financial statements and all accompanying information in conformity with GAAP; and for compliance with applicable laws and regulations, rules, and the provisions of contracts and grant agreements.

You are also responsible for making drafts of financial statements, all financial records, and related information available to us and for the accuracy and completeness of that information (including information from outside of the general and subsidiary ledgers). You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, identification of all related parties and all related-party relationships and transactions, and other matters; (2) additional information that we may request for the purpose of the audit; and (3) unrestricted access to persons within the Fund from whom we determine it necessary to obtain audit evidence. At the conclusion of our audit, we will require certain written representations from you about the financial statements; compliance with laws, regulations, contracts, and grant agreements; and related matters.

Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the Fund involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the Fund received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the Fund complies with applicable laws, regulations, contracts, agreements, and grants. You are also responsible for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts, and grant agreements that we report.

Responsibilities of Management for the Financial Statements, Continued

You agree to assume all management responsibilities for the financial statements and related notes, and supplementary information and any other nonaudit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements, related notes, and supplementary information and that you have reviewed and approved the financial statements, related notes, and supplementary information prior to their issuance and have accepted responsibility for them. Further, you agree to oversee the nonaudit services by designation an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Engagement Administration, Fees, and Other

We understand that your employees will prepare all cash, accounts receivable, or other confirmations we request and will locate any documents selected by us for testing.

We will provide copies of our reports to the Oklahoma State Auditor and Inspector; however, management is responsible for distribution of the reports and the financial statements. Unless restricted by law or regulation, or containing privileged and confidential information, copies of our reports are to be made available for public inspection.

The audit documentation for this engagement is the property of Finley & Cook, PLLC and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Finley & Cook, PLLC personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

The audit documentation for this engagement will be retained for a minimum of 5 years after the report release date.

Dan Bledsoe is the engagement partner and is responsible for supervising the engagements and signing the reports or authorizing another individual to them. We expect to begin our audit during October of each year and to issue our report no later than December 15 each year.

Engagement Administration, Fees, and Other, Continued

Our fee for these services will be at our standard hourly rates plus out-of-pocket costs (such as report reproduction, word processing, postage, travel, copies, telephone, etc.) except that we agree that our gross fee, including expenses, will not exceed the following:

2022	\$	32,000
2023		32,500
2024		33,000
2025		33,500
2026		34,000

Our standard hourly rates vary according to the degree of responsibility involved and the experience level of the personnel assigned to your audit. Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. In accordance with our firm policies, work may be suspended if your account becomes 30 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report(s). You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the engagement. If significant additional time is necessary, we will keep you informed of any problems we encounter and our fees will be adjusted accordingly.

Reporting

We will issue written reports upon completion of the audit. Our reports will be addressed to the Fund's Board of Trustees. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinion, add a separate section, or add an emphasis-of-matter or other-matter paragraph to our auditors' report, or if necessary, withdraw from this engagement. If our opinion is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or issue reports, or we may withdraw from this engagement.

The *Government Auditing Standards* report on internal control over financial reporting and on compliance and other matters will state that (1) the purpose of the report is solely to describe the scope of testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fund's internal control or on compliance, and (2) the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Fund's internal control and compliance. The report will state that the report is not suitable for any other purpose.

Examination of Census Data

We are pleased to confirm our understanding of the services we are to provide for the Defined Benefit Plans of the Oklahoma Municipal Retirement Fund (the “Fund”).

We will examine the following assertions of the Fund as of June 30, 2022, 2023, 2024, 2025, and 2026.

1. The census data provided to the actuary is complete and accurate based on the accumulation of census data reported by participating employers for the period. Census data includes the following for the categories listed below:

Active Participants

- Date of birth
- Service credit date
- Eligible compensation
- Gender
- Employment status

Retirees

- Date of birth
- Service credit date
- Gender
- Contingent annuitant’s birthdate if participant selected joint and survivor benefit
- Retirement status
- Form of benefit
- Monthly benefit

As set forth in the Participant Accounting System and as required by the actuary.

2. The census data provided to the actuary properly reflects current benefit provisions in effect included in the Participant Accounting System and the respective Joinder Agreement.
3. The census data provided to the actuary properly excludes deceased members based on the Plan’s validation of the existence of inactive and retired members by cross-matching social security numbers of inactive and retired members with the Social Security Administration.

Periods covered each year for items 1, 2, and 3 above are as follows:

<u>Audit Year</u>	<u>As of Date for Data Provided to the Actuary</u>	<u>Period Covered</u>	<u>Date Benefit Provisions in Effect</u>	<u>Date used for Identifying Deceased Members</u>
June 30, 2022	July 1, 2022	July 1, 2021 to June 30, 2022	July 1, 2022	July 1, 2022
June 30, 2023	July 1, 2023	July 1, 2022 to June 30, 2023	July 1, 2023	July 1, 2023
June 30, 2024	July 1, 2024	July 1, 2023 to June 30, 2024	July 1, 2024	July 1, 2024
June 30, 2025	July 1, 2025	July 1, 2024 to June 30, 2025	July 1, 2025	July 1, 2025
June 30, 2026	July 1, 2026	July 1, 2025 to June 30, 2026	July 1, 2026	July 1, 2026

Our examination will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Accordingly, it will include examining on a test basis your records and other procedures to obtain evidence necessary to enable us to express our opinion as to whether the above assertions are fairly stated, in all material respects based on conformity with the following criteria as developed by the Fund:

The tests performed as determined by Finley & Cook for each assertion will not result in more than a 5% exception rate.

We will issue a written report upon completion of our examination. Our report will be addressed to the Board of Trustees of the Fund. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion. If our opinion is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the examination or are unable to form or have not formed an opinion, we may decline to express an opinion or may withdraw from this engagement.

Because of the inherent limitations of an examination engagement, together with the inherent limitations of internal control, an unavoidable risk exists that some material misstatements may not be detected, even though the examination is properly planned and performed in accordance with the attestation standards.

The report will be limited to use by the Fund and its member cities participating in the Fund's defined benefit plans and their auditors.

Our engagement will not include a detailed inspection of every transaction and cannot be relied on to disclose all material errors, or known and suspected fraud or noncompliance with laws or regulations, or internal control deficiencies, that may exist. However, we will inform you of any known and suspected fraud and noncompliance with laws or regulations, internal control deficiencies identified during the engagement, and uncorrected misstatements that come to our attention unless clearly trivial.

We understand that you will provide us with the information required for our examination and that you are responsible for the accuracy and completeness of that information. We may advise you about appropriate criteria, but the responsibility for the subject matter remains with you.

You are responsible for the presentation of census data maintained by the Fund in accordance with the criteria described above; and for selecting the criteria and determining that such criteria are appropriate for your purposes. You are also responsible for making all management decisions and performing all management functions; for designating an individual with suitable skill, knowledge, or experience to oversee any nonattest services we provide; and for evaluating the adequacy and results of those services and accepting responsibility for them. Failure to provide such an assertion will result in our withdrawal from the engagement. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the measurement, evaluation, or disclosure of the subject matter; (2) additional information that we may request for the purpose of the examination; and (3) unrestricted access to persons within the Fund from whom we determine it necessary to obtain evidence.

At the conclusion of the engagement, you agree to provide us with certain written representations in the form of a representation letter.

Dan Bledsoe is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign it.

We expect to begin our examination during April each year and complete the procedures no later than May 15 each year. Our fees for these services will be as follows:

2022	\$	11,750
2023		12,000
2024		12,250
2025		12,500
2026		12,750

Board of Trustees
Oklahoma Municipal Retirement Fund
February 14, 2022
Page -4-

The fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the examination. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate before we incur the additional costs. Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. In accordance with our firm policies, work may be suspended if your account becomes 30 days or more overdue and will not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket expenditures through the date of termination.

We appreciate the opportunity to be of service to you and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign below and return it to us.

Sincerely,

RESPONSE:

This letter correctly sets forth the understanding of
Oklahoma Municipal Retirement Fund.

Jodi S. Cox, Executive Director and CEO

Date

Donna Doolen, Chairman of the Board

Date

February 14, 2022

Board of Trustees
Oklahoma Municipal Retirement Fund
1001 NW 63rd Street, Suite 260
Oklahoma City, OK 73116

We are pleased to confirm our understanding of the services we are to provide Oklahoma Municipal Retirement Fund (the “Fund”) Defined Benefit Plan (the “Plan”) for the years ended June 30, 2022, 2023, 2024, 2025, and 2026.

Audit Scope and Objectives—GASB 68

We will audit the fiduciary net position as of June 30, 2022, 2023, 2024, 2025, and 2026, and the changes in fiduciary net position for the years then ended, included in the Schedule of Changes in Fiduciary Net Position by Employer (the Schedule”) of the Plan, and the related notes. We will also audit the fiduciary net position of each individual employer as of June 30, 2022, 2023, 2024, 2025, and 2026, and the changes in fiduciary net position of each individual employer for the years then ended, included in the Schedule, and the related notes.

The objectives of our audit are to obtain reasonable assurance as to whether the Schedule as a whole is free from material misstatement, whether due to fraud or error; issue an auditors’ report that includes our opinion about whether the Schedule is fairly presented, in all material respects, in conformity with GAAP. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the Schedule.

Auditors' Responsibilities for the Audit of the Schedule

We will conduct our audit in accordance with GAAS and will include tests of your accounting records and other procedures we consider necessary to enable us to express such opinions. As part of an audit in accordance with GAAS, we exercise professional judgment and maintain professional skepticism throughout the audit.

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management. We will also evaluate the overall presentation of the Schedule, including the disclosures, and determine whether the Schedule represents the underlying transactions and events in a manner that achieves fair presentation. We will plan and perform the audit to obtain reasonable assurance about whether the Schedule is free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the Fund or to acts by management or employees acting on behalf of the Fund.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements may not be detected by us, even though the audit is properly planned and performed in accordance with GAAS. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the Schedule. However, we will inform the appropriate level of management of any material errors, fraudulent financial reporting, or misappropriation of assets that comes to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

We will also conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability or the Plan's ability to continue as a going concern for a reasonable period of time.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts and direct confirmation of certain transactions during the audit period with various third parties. We may also request written representations from your attorneys as part of the engagement.

Audit Procedures—Internal Control

We will obtain an understanding of the Plan and its environment, including internal control relevant to the audit, sufficient to identify and assess the risks of material misstatement of the Schedule, whether due to error or fraud, and to design and perform audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. Accordingly, we will express no such opinion. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the Schedule is free of material misstatement, we will perform tests of the Plan's compliance with the provisions of applicable laws, regulations, contracts, and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Other Services

We will also assist in preparing the Schedule in conformity with GAAP based on information provided by you.

We will perform the services in accordance with applicable professional standards. The other services are limited to the Schedule preparation services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

Responsibilities of Management for the Schedule

Our audit will be conducted on the basis that you acknowledge and understand your responsibility for designing, implementing, and maintaining internal controls relevant to the preparation and fair presentation of the Schedule that is free from material misstatement, whether due to fraud or error, including monitoring ongoing activities; for the selection and application of accounting principles; and for the preparation and fair presentation of the Schedule in conformity with GAAP.

Responsibilities of Management for the Financial Statements, Continued

Management is responsible for making all financial records and related information available to us and for the accuracy and completeness of that information (including information from outside of the general and subsidiary ledgers). You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the Schedule, such as records, documentation, identification of all related parties and all related-party relationships and transactions, and other matters; (2) additional information that we may request for the purpose of the audit; and (3) unrestricted access to persons within the Fund from whom we determine it necessary to obtain audit evidence. At the conclusion of our audit, we will require certain written representations from you about the Schedule and related matters.

Your responsibilities include adjusting the Schedule to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the Schedule taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the Fund involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the Schedule. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the Fund or the Plan received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the Fund and the Plan comply with applicable laws and regulations.

You agree to assume all management responsibilities for the Schedule preparation services and any other nonattest services we provide; oversee the services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of the services; and accept responsibility for them.

Engagement Administration, Fees, and Other

We understand that your employees will prepare all confirmations we request and will locate any documents selected by us for testing.

The audit documentation for this engagement is the property of Finley & Cook, PLLC and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to the Oklahoma State Auditor and Inspector (SAI) or its designee. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Finley & Cook, PLLC’s personnel. Furthermore, upon request, we may provide copies of selected audit documentation to SAI or its designee. SAI or its designee may intend or decide to distribute the copies or information contained therein to others, including other governmental agencies.

Dan Bledsoe is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign it. We expect to begin our audit in April each year and to issue our report no later than May 31 each year.

Our fee for services will be at our standard hourly rates plus out-of-pocket costs (such as report reproduction, word processing, postage, travel, copies, telephone, etc.) except that we agree that our gross fee, including expenses, will not exceed the following:

2022	\$	19,750
2023		20,000
2024		20,250
2025		20,500
2026		20,750

Our standard hourly rates vary according to the degree of responsibility involved and the experience level of the personnel assigned to your audit. Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. In accordance with our firm policies, work may be suspended if your account becomes 30 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate before we incur the additional costs.

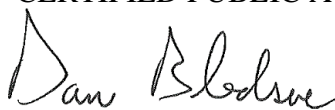

Reporting

We will issue a written report upon completion of our audit of the Schedule. Our report will be addressed to the Fund’s Board of Trustees. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add a separate section, or add an emphasis-of-matter or other-matter paragraph to our auditors’ report, or if necessary, withdraw from this engagement. If our opinions are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or withdraw from this engagement.

We appreciate the opportunity to be of service to the Fund and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign below and return it to us.

Sincerely,

FINLEY & COOK, PLLC
CERTIFIED PUBLIC ACCOUNTANTS

Dan Bledsoe
Partner

RESPONSE:

This letter correctly sets forth the understanding of
Oklahoma Municipal Retirement Fund.

Jodi S. Cox, Executive Director and CEO
