OKLAHOMA MUNICIPAL RETIREMENT FUND BOARD MEETING AGENDA

Meeting at 10:00 a.m.

1001 NW 63rd Street, Suite 260; Oklahoma City, OK

July 29, 2022

Official action can only be taken on items which appear on the agenda. The Trustees may adopt, approve, ratify, deny, defer, recommend, amend, strike or continue any agenda item. When more information is needed to act on an item, the Trustees may refer the matter to the Executive Director or Trust attorney. The Trustees may also refer items to standing Committees of the Trust for additional study. Under certain circumstances, items can be deferred to a specific later date or stricken from the agenda entirely.

1. Call to Order
2. Approval of Consent Agenda
 - A. Minutes of June 24, 2022, meeting(s) and Retreat minutes of June 23, 2022
 - B. Monthly Valuation of Fund Assets & Unit Values by Custodian:

1. Defined Benefit Balanced Fund	13. Target Retirement 2060 Fund
2. International Investment Equity Fund	14. Target Retirement 2055 Fund
3. Aggressive Equity Fund	15. Target Retirement 2050 Fund
4. Real Assets	16. Target Retirement 2045 Fund
5. Global Equity Index Fund	17. Target Retirement 2040 Fund
6. ESG U.S. Stock Fund	18. Target Retirement 2035 Fund
7. Growth & Value Fund	19. Target Retirement 2030 Fund
8. S&P 500 Index	20. Target Retirement 2025 Fund
9. Total Yield Bond Fund	21. Target Retirement 2020 Fund
10. Bond Index Fund	22. Target Retirement Income Fund
11. Voya Fixed Plus III	23. Loan Fund
12. Target Retirement 2065 Fund	24. Self-Directed Brokerage Fund
 - C. Purchases and Sales of Assets
 - D. Administrative Expenses and Fees
 - E. Benefit Payments and Contribution Refunds
 - F. Acknowledgement of Receipt of the JPMorgan Core Bond Institutional Trust Amended and Restated Confidential Offering Memorandum and the Offering Supplement dated June 28, 2022
3. Consideration and Possible Action of Items Removed from the Consent Agenda
4. Comments from Public
5. River Road: Annual Update from Investment Manager – Andrew Beck and Ben Brady

6. Consideration and Possible Action Regarding Investment Committee Report
 - A. ACG: Review of Monthly ASAP Reports
 - B. ACG: Consideration and Possible Action Regarding Hiring a SMID Cap Growth Manager for the Defined Benefit Portfolio and as a Component of the Aggressive Equity Option in the Defined Contribution Plan as Recommended by the Investment Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the Meeting
 - C. Consideration and Possible Action on Reallocation and/or Rebalancing of Assets Among Investment Managers as Recommended by the Investment Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the Meeting
7. Consideration and Possible Action Regarding Administrative Committee Report
8. Consideration and Possible Action Regarding Contract Committee Report
 - A. Discussion and Possible Action to Renew Liability Protection Plan with OMAG as Recommended by the Contract Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the Meeting
 - B. Discussion and Possible Action to Renew Business Personal Property Coverage with Hartford as Recommended by the Contract Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the Meeting
 - C. Discussion and Possible Action to Renew Cyber Security Insurance with Lloyds/Beazley as Recommended by the Contract Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the Meeting
9. Dean Actuaries, LLC: Discussion and Possible Action on the Projected Impact of Asset Experience on OkMRF Funding Requirements
10. Receive Report on Newly Adopted or Amended OkMRF Member Plans
11. OkMRF Staff Report
12. New Business
13. Trustee/Member Comments
14. Adjourn

MINUTES
A SPECIAL MEETING OF THE BOARD OF TRUSTEES OF THE
OKLAHOMA MUNICIPAL RETIREMENT FUND
June 23, 2022

1. Call To Order

The Board of the Oklahoma Municipal Retirement Fund met at the Oklahoma Municipal Retirement Fund, Oklahoma City, Oklahoma on June 23, 2022, at 9:05 a.m. for Trustee Retreat. No action taken, retreat is purely educational and for discussion purposes only.

BOARD OF TRUSTEES

Chair: Donna Doolen, Finance Director, City of Ada
Vice-Chair: Robert Johnston, City Manager, City of Clinton
Secretary: Robert Park, Retiree, City of Sallisaw
Treasurer: Jim Luckett, Jr., Retiree, City of Thomas
Members: Joe Don Dunham, Finance Director, City of Lawton
Tamera Johnson, Retiree, City of Shawnee
Timothy Rooney, City Manager, City of Mustang
Ed Tinker, Retiree, City of Glenpool

OTHERS PRESENT:

OkMRF Staff: Jodi Cox, Executive Director/CEO
Chris Whatley, Plan Advisor & Portfolio Strategist
Rhnea Stewart, Fund Accountant

Others: Jonathan Cogan, BlackRock
Connor Ortolf, BlackRock (*via video*)
Sean Sullivan, Dean Actuaries
Chuck Dean, Dean Actuaries
Deltra Hayes, Voya Financial
Karen Eisenbach, Voya Financial
Haley Rives, ACG
Kevin Moore, ACG

NOTICE: The agenda for the June 23, 2022, Trustee Retreat meeting was posted at Oklahoma Municipal Retirement Fund, Oklahoma City, Oklahoma, in Columbus Square, first floor by 9:00 a.m. on June 21, 2022, by Chris Whatley.

Signature

2. **9:00 a.m. – OkMRF Portfolio Analysis and Liquidity Simulation**

Ortolf introduced Cogan and gave a brief background on the topic. The goal of the presentation was to project the amount of illiquidity the Defined Benefit (DB) Portfolio would need to accept at various levels of investment and the resulting impact on asset allocation if multiple OkMRF Members left the system and redeemed their respective assets from the portfolio. Cogan began with an explanation of the Blackrock Capital Market Assumptions and showed a hypothetical 5% reallocation to Private Equity or Infrastructure. Expected risk and return measures were plotted for asset classes followed by a correlation matrix.

Cogan next developed liquidity constraints using a Monte Carlo Simulation of outcomes. Within each simulation, a randomly selected number from 0-13 was used to determine how many plans would redeem each year. Then names of the withdrawing plans were randomly selected, and the redemption value used were based on plan values as of May 31, 2022. This simulation was then run 10,000 times. On average, just over 58% of the time the hypothetical redemption was equivalent to just 4.83% of the DB Portfolio. The median hypothetical redemption was 4.02% with a 4.25% standard deviation. Applying a 5% hypothetical reallocation into illiquid alternative investments meant the average hypothetical redemption of 4.83% would only increase the portfolio weighting to illiquid assets by 0.25% post redemption.

3. **9:45 a.m. – Impact of Covid**

Sullivan presented information on the impact of Covid-19 as it relates to retirement repercussions and its impact on mortality factors. During a 40-week period in 2020, mortality was 21.1% higher than expected with 80% of those deaths attributable to Covid-19. Life expectancy age declined at birth from the year 2019 to 2020 in 27 western countries with the U.S. having the largest decline, and in many of the countries, the decline offset the previous four (4) year gains. The Old Age, Survivors, and Disability Insurance adjusted mortality percentage higher for the impact of Covid-19 for the years 2020 through 2023, splitting age groups between 64 and under and 65 and over. The year 2021 reflected the highest percentage increase for both age groups.

Other thoughts to consider were discussed. Was the pandemic a one-time event, with an insignificant effect on future mortality? Will the population be healthier with stronger immune systems that could lower future mortality? Will the residual long-term effects on survivors increase future mortality? How long will it take for long-term effects to emerge? Will recurrences happen with familiar viruses? Will there be a new future pandemic?

Other types of implications that have resulted from the pandemic were briefed. Did participants retire earlier than planned or will they work longer? How impactful was the loss of revenue to governments and businesses? Will employees demand more work flexibility in hours and locations? How will women be impacted due to being the primary care giver to family? How will the current economic factors of inflation, supply chain issues and market returns affect pension plan funding going forward?

4. **10:15 a.m. – New Requirements: ASOP-4**

Dean began his presentation with a social security status update: projected insolvency in 2034; cut back in benefits compared to needed payroll tax increases; past thirteen (13) years of the 75-year shortfalls in taxable payrolls in 2010 being 1.92% to a high of 3.54% for 2021; impact of tax increases and benefit changes starting in 2023 compared to 2035; and, options for possible solutions.

Dean explained the requirements of Actuarial Standard of Practice (ASOP) No. 4, *Measuring Pension Obligations and Determining Pension Plan Costs or Contributions*. ASOP No. 4 is effective for measurement dates after February 15, 2023, which will be OkMRF's next and upcoming actuarial evaluation for July 1, 2023. The new standard has two (2) major focuses for the actuary: (1) to develop a reasonable actuarially determined contribution for the report; and (2) to disclose a market-based liability with a new actuarial calculation with new discount rates referred to as the low-default risk obligation measure of benefits earned (LDROM) as of the measurement date. When calculating this measure, the actuary should select a discount rate or discount rates derived from low-default-risk fixed income securities whose cash flows are reasonably consistent with the pattern of benefits expected to be paid in the future. In Dean's opinion, the issue for OkMRF will be the communication, disclosure in report, and education to the membership in that the new calculation of LDROM is not to be used for the annual funding purposes and/or to measure the status of the plan's unfunded status level when actuarially determined contributions are systematically calculated and followed annually.

5. **10:45 a.m. – Break**

6. **11:00 a.m. – Keynote Speaker: Voya Financial – Exploring Emerging Trends to Serve the Needs of Government Employees**

Eisenbach presented some of Voya's research related to providing workplace benefits and savings solutions to assist employees to make a better financial future. Three (3) factors affecting employee financial wellness and their future retirement track are the amount of student debt owed, time spent being a caregiver for both children and aging family members, and mental health and inclusion within their workforce. Additionally, the number one reason for withdrawals from retirement plans is unexpected medical expenses, with health care costs rising two times faster than incomes.

The benefits being provided to employees are ever evolving with more choices, responsibilities, and complexity. Most do not fully understand the total benefit packages at the time of initial enrollment or as their tenure in the workforce continues. Based on surveys, the highest stress factor in the workplace is financial stress at 59% and more employees are looking for the employer to provide more assistance and education for making benefit decisions.

Voya's research indicates a need for employees to save for a financial emergency. Thirty percent of individuals have no emergency savings across the demographics of household income, gender, and age. Voya supports programs to build savings for unexpected

expenses which will aid in relieving some of the financial stress and improve the future retirement outcome.

Healthcare availability and affordability top the list of American's worries for the fifth year in a row. Voya wants to help active employees and retirees address and plan for healthcare expenses as well as the cost of professional caregiving for families. Caregiving impacts the workplace due to employee replacement costs, productivity loss, and the amount of extra time spent on coordinating and planning this need.

7. 11:45 a.m. – Update on Call Center

Hayes with Voya provided an update on supplementing some of their back-office services through their Global Operations Team by utilizing a top ten (10) financial business processing management company based in the Philippines. This team will take call center overflow calls, improve efficiencies for office operations, extend hours of service due to time zone differentials, improve programming testing turnaround time and provide the needed workforce for Voya. Hayes provided assurance that computer security concerns have been addressed, all employees are proficient in the English language, and will be professionally trained on the OkMRF plans for call center services.

Hayes briefly commented on the recent discovery of call center misinformation and additional training being conducted at their New York location. OkMRF will be receiving a three (3) month audit report of call center activity to review.

8. 12:00 p.m. – Lunch

9. 1:00 p.m. – Global Economic/Geopolitical Update

Rives presented information related to the current market conditions noting that market drawdowns are common and have an average of about 14% over the past forty (40) years. A bear market is normally defined as the S&P 500 or an overall market experiencing a decline of 20% or more over a period of about two months with negative investor sentiment and other declining economic factors. Most major asset class returns for the current year and the past year are struggling. Commodities are the only strong performer so far, yet pricing remains volatile and as sanctions against Russia are highly disruptive to their markets and others.

Growth and forecasted outlooks are beginning to be revised down since the first of the year as well as the GDP growth rate through 2024. Financial credit rates are rising and tightening for most markets, consumer spending growth is slowing, the job market is recovering but still facing labor shortages, and inflation factors of wage growth, supply chain pressures, energy prices, and consumer demand are still elevated. However, it is too early to call this a recession but the biggest concern from the Global Fund Manager Survey is the concern of a global recession in the near term.

The P/E multiples have been extremely high for the S&P 500 Index but have moderated since the first of the year but still are somewhat expensive. However, buying

opportunities do exist, and value will be favored over growth in the future cyclical recovery.

10. 1:45 p.m. – Break

11. 2:00 p.m. – Global Equity DB Portfolio Review

Moore began by reviewing the DB Plan asset allocation evolution since its inception with ACG. Numerous adjustments and tweaks have been made as market dynamics have changed and with the growth in plan assets.

Three (3) potential return-enhancing asset classes were discussed. The asset classes were Non-U.S. Small-Mid Cap, Emerging Markets Small-Mid Cap, and Private Equity. The Non-U.S. Small-Mid Cap has seen growth in the number of new companies coming to the market during the past 20 years, resulting in a breadth of stock options in the index with multiple layers of diversification with the small-smid cap representing 67% of the stocks with only a 9% weighting in the index; therefore, providing an active management opportunity for underfollowed stocks by analysts. The Emerging Markets Small-Mid index is composed of over 75% in the mid-small cap size, resulting in 42% of emerging market active managers achieving top rolling three-year beta returns within the mid and small cap sectors. Real GDP consensus forecasting expects the emerging economies' growth to outpace the U.S. and developed countries in the next couple of years. Emerging markets stocks in small and mid-cap have much less analyst coverage and enable differentiated views of active managers to invest in the full opportunity set of emerging markets by all cap and style diversification.

Moore then discussed Private Equity by pointing out the differences between public and private markets. Five (5) different business life cycles for Private Equity were discussed from early development to the decline. There are three (3) broad sector classifications for Private Equity: venture capital, leveraged buyout, and private credit. The investment horizons for a leveraged buyout and venture capital exhibit strong outperformance compared to public equity. Private equity investing can provide broad diversification with low penetration compared to the opportunity set and based on manager selection can create a strong alpha opportunity.

12. 3:00 p.m. – ACG Extensive Fee Review

Moore presented schedules and detailed reviews of the money manager fees for both the DB and DC plans.

The DB plan's investment manager fee structure falls within the least expensive quartile when compared to similar sized public plans. Additionally, the fee structure comes in under the 54-bps manager expense of other public pension plans as reported in a National Conference on Public Employee Retirement Systems 2021 study. The total weighted average money manager fee for the DB plan was 45 bps based on the March 31, 2022, market value.

The DC plan offers nine (9) asset class options, six (6) of the options have blended fees below the least expensive quartile within their peer universe and two (2) of the options

fees fall below the median. The eleven (11) Target Date Retirement funds all fall below the least expensive quartile of their respective peer universe. Only one (1), the Total Yield Option fees were in the most expensive quartile.

13. 3:45 p.m. – Wrap Up & Adjourn

Cox expressed thanks to ACG and all guest speakers for a successful retreat.

Whatley requested all to meet in the hotel lobby at 5:00 p.m. and the dinner location had changed to Picasso Café in the Paseo district.

Robert Park, Secretary

Donna Doolen, Chair

Respectfully submitted by:

Rhnea Stewart, Fund Accountant

MINUTES
BOARD OF TRUSTEES
OKLAHOMA MUNICIPAL RETIREMENT FUND
June 24, 2022

1. Call To Order

The Board of the Oklahoma Municipal Retirement Fund met at Oklahoma Municipal Retirement Fund Offices, Oklahoma City, Oklahoma, on June 24, 2022, at 10:02 a.m. with Chair Doolen presiding. On roll call, the following members were present:

BOARD OF TRUSTEES

Chair:	Donna Doolen, Finance Director, City of Ada
Vice-Chair:	Robert Johnston, City Manager, City of Clinton
Treasurer:	Jim Lockett, Jr., Retiree, City of Thomas
Secretary:	Robert Park, Retiree, City of Sallisaw
Members:	Joe Don Dunham, Finance Director, City of Lawton
	Tamera Johnson, Retiree, City of Shawnee
	Tim Rooney, City Manager, City of Mustang
	Ed Tinker, Retiree, City of Glenpool

OTHERS PRESENT:

OkMRF Staff:	Jodi Cox, CEO & Director
	Chris Whatley, Plan Advisor & Portfolio Strategist
	Rhnea Stewart, Fund Accountant

OkMRF Attorney: David Davis

Others:	Haley Rives, ACG
	Kevin Moore, ACG
	Brian Murtagh, SSgA (<i>via video</i>)
	Michael Barnes, SSgA (<i>via video</i>)
	Unidentified participants (2) (<i>via telephone</i>)

Whatley opened the meeting with prayer and Rooney led the Pledge of Allegiance.

Doolen welcomed everyone and called the meeting to order.

NOTICE: The agenda for the June 24, 2022, meeting was posted in Columbus Square, Oklahoma City, Oklahoma, by Chris Whatley by 10:00 a.m. on June 23, 2022.

Signature(s)

2. Approval of Consent Agenda

The following items were presented under the consent agenda.

A. Minutes of May 25, 2022 and May 26, 2022 Meeting(s)

B. Monthly Valuation of Fund Assets & Unit Values by Custodian as of May 31, 2022

Option	Value By Fund
Defined Benefit	\$ 683,122,318.52
International Investment Equity	\$ 8,506,399.20
Aggressive Equity	\$ 17,026,383.78
Real Assets Fund	\$ 1,286,264.93

Park, Rooney and Tinker

NAY: None

3. Consideration and Possible Action of Items Removed from the Consent Agenda

No action taken.

4. Comments from the Public

None.

5. SSgA: Annal Update from Investment Managers – Brian Murtagh and Michael Barnes

Barnes began by expressing appreciation for the long-term relationship and passed on regards from David Settles. A brief update for the firm was provided stating \$4.02 trillion in assets, 30 million plus DC participants, announcing the upcoming retirement of their president and CEO and the named replacement.

Murtagh started with the overview of the various index and Target Date funds OkMRF utilizes, noting some tracking errors occurred at the fund class level due to the closing of foreign market exchanges, write-offs and zero exposure to Russian companies.

Target Date funds contributed to strong growth for assets under management at SSgA. These funds provide excellent value for minimal fee, a transparent approach, and broad coverage with no concerns for capacity or manager strengths driving the asset allocation. Market trends have been supporting the growth in index funds due to plans focusing on their fiduciary responsibilities and the amount of manager fees being paid.

The objective and approach to their glide path designs were discussed as well as their Target Retirement investment philosophy focus on asset allocation, diversification, cost savings, and disciplined portfolio construction to achieve portfolio efficiency. Risk is managed through a well-diversified lineup of index funds within the asset classes of equities, inflation sensitive and fixed income. The fixed income asset class provides more diversification in comparison to other index funds. He noted that the inflation sensitive asset class resulted in some drag on performance during the past five (5) to seven (7) years, but with the impending inflationary factors, it reminds us why SSgA remains disciplined with this sensitivity factor within the lineup. No enhancements were made during the glide path review process in 2021. However, evaluation of infrastructure equity is being considered as a hedge to inflationary concerns.

6. Consideration and Possible Action Regarding Investment Committee Report

A. ACG: Review of Monthly ASAP Reports

Moore stated that May was a flat performance month for the portfolios. June has been a down month with an approximate 20% decline in global markets. The 10-year annualized number is at 8.8% and remains above the policy index and the interest rate return assumption. The current year return for the DB portfolio is down 11.14% as of the end of May. Non-U.S. equities really struggled due to geopolitical concerns in many countries with growth-oriented stocks being hit harder than value. The fixed income allocation is performing as expected and continues to add value, and real estate is reflecting the strongest performance. Real estate returns tend to have a lag effect to other public markets, so it will most likely reflect a slow down in the forthcoming quarters.

Within the DC plan, the Growth & Value investment option has been hit hard in the short-term, but the longer returns are still holding good. All other investment options are performing as expected. The ESG option continues to gain assets from participants. Target Date funds represent over 50% of assets. The Real Assets option is doing good for Participants with inflationary concerns coming to the forefront.

B. ACG: Consideration and Possible Action Regarding the SMID Growth Manager Search Results within the Defined Benefit Portfolio and Determine Potential Replacement Candidates to Interview and Ultimately Replace TimesSquare LLC in the Defined Benefit (DB) Balanced Fund as Recommended by the Investment Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the meeting

Moore summarized and reiterated the information related to the decision to terminate TimesSquare.

Moore briefly discussed ACG's money manager selection process to develop a short list of potential replacement managers for the growth vehicle. Four (4) potential managers were reviewed for the purpose of selecting the desired candidates to interview at the next Investment Committee meeting in July. The firms and their strategy details were reviewed including management fee structures in their CIT funds. The capitalization size, sector allocation characteristics, performance history for the short and long-term time frames, as well as upside and downside performance history. Discussions ensued on evaluating the statistical data versus in person interviews for a potential new money management firm, ownership structure, and as well as succession planning factors. ACG recommended hearing from two (2) of the managers, Loomis, Sayles & Company, L.P. and William Blair Investment Management, LLC.

Motion made by Lockett, seconded by Tinker to interview two (2) managers, Loomis, Sayles & Company, L.P. and William Blair Investment Management, LLC for replacement of the small-mid cap growth manager in the Defined Benefit (DB) portfolio at the next Investment Committee meeting on July 28, 2022, as recommended by ACG.

Motion carried: AYE: Doolen, Dunham, Johnson, Johnston, Lockett, Park, Rooney and Tinker

NAY: None

C. ACG: Consideration and Possible Action Regarding Replacing the Small Cap Growth Manager Component of the Aggressive Equity Option in the Defined Contribution Plan, if Deemed Necessary, and Determine Potential Candidates to Interview as Recommended by the Investment Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the meeting

Moore indicated ACG is comfortable with changing the composition of the small cap growth within the Aggressive Equity option to a small-mid cap allocation and utilize the same interview process that is being considered for the DB portfolio.

Motion made by Lockett, seconded by Tinker to terminate the existing small cap manager, TimesSquare, in the Aggressive Equity Option and to interview two (2) managers, Loomis, Sayles & Company, L.P. and William Blair Investment Management, LLC for replacement at the next Investment Committee meeting on July 28, 2022, as recommended by ACG.

Motion carried: AYE: Doolen, Johnson, Johnston, Lockett, Park, Rooney and Tinker

NAY: None

ABSENT: Dunham

D. Discussion and Possible Action on Reallocation and/or Rebalancing of Assets Among Investment Managers as Recommended by the Investment Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustee at the Meeting

No action taken.

7. **Consideration and Possible Action Regarding Administrative Committee Report**

No action taken.

8. **Consideration and Possible Action Regarding Contract Committee Report**

A. **Consideration and Possible Approval of the Transition Services Agreement with Northern Trust DB Custodian, as Recommended by the Contract Committee and Rejection or Approval of any Amendments Proposed or Considered by the Trustees at the Meeting**

Rooney on behalf of the Contract Committee presented the updated agreement with Northern Trust for transition services for the liquidation of the TimesSquare assets in the DB portfolio.

Motion made by Tinker, seconded by Dunham to approve the Transition Services Agreement with Northern Trust.

Motion carried:

AYE: Doolen, Dunham, Johnson, Johnston, Luckett, Park, Rooney and Tinker

NAY: None

B. **Consideration and Possible Action Regarding Voya's Request for OkMRF to Acknowledge their Intent to Supplement Existing Retirement Plan Resources for some Services Through their Global Operations Team**

Contract Committee member Rooney commented that during the Trustee Retreat, the expansion of services was summarized by a Voya representative and acknowledgment was requested by July 15, 2022. Cox indicated this was optional for governmental DC clients to allow or not allow overflow calls to be directed to the Global Operations Team with the actual expansion of services to be implemented in January 2023.

Motion made by Tinker, seconded by Johnston to defer acknowledgment of supplementing their existing retirement plan resources through Voya's Global Operations Team at this time.

Motion carried:

AYE: Doolen, Dunham, Johnson, Johnston, Luckett, Park, Rooney and Tinker

NAY: None

9. **Consideration and Possible Action on Trustee Retreat Topics and to Help Staff Prioritize Tasks**

Staff was given direction to proceed with the evaluation and process to add Private Equity as a part of the DB asset allocation. Staff was further directed to include long/short asset allocation review at the August Investment Committee meeting.

10. **Receive Report on Newly Adopted or Amended OkMRF Member Plans**

Whatley reported on plan changes for the OkMRF members, those members who have adopted the restated master plan and joinder, and a new DC member, Multiple Community Services Authority, recognizing Girardi for her efforts.

11. **OkMRF Staff Report**

Cox reported on the following items:

- RiverRoad will present next month.
- Dean Actuaries will present the market impact update for June 30, 2022.

- The six-year cycle for the revised DB Master plan document and Joinder has gone through the first IRS review. Staff has been working with tax attorney to answer and respond to their questions. This is the first review and is a back-and-forth process.
- Nominations for Districts 3 and 8 remain open until June 30, 2022. As of today, District 3 has nominations for incumbent Donna Doolen, Finance Director of Ada and Elizabeth Sloat, City Clerk of Healdton. District 8 has nominations for Shaun Barnett, City Manager of Woodward and Micheal Shannon, City Manager of Guymon.
- Investment Committee will meet at 1:00 p.m. on July 28th for the purpose of interviewing money managers to replace TimesSquare.
- CMAO Summer conference will be in Norman, July 20th through July 22nd.
- The agenda for the Public Funds conference has been provided.
- Personal note of gratitude and appreciation for Trustee concern and prayers during the loss of her family member.
- Wished all a safe and blessed 4th of July.

12. **New Business**

None.

13. **Trustee/Member Comments**

None.

14. **Adjourn**

With no further business to conduct the meeting adjourned.

Robert Park, Secretary

Donna Doolen, Chair

Respectfully submitted by:

Rhnea Stewart

Agenda

- **Firm Overview**
- **Market Review**
- **Portfolio Review**
- **Market Outlook**
- **Appendix**

Firm Overview As of 6/30/2022

- In office, employing flexible schedule; reduced travel
- DAV II Strategy merged with DAV Strategy, effective July 1
- Formally integrated ESG into the firm's critical investment criteria
- Focused on improving 'universe management,' guidelines for Absolute Value®, risk management

■ \$10.47 B in total assets¹

▪ Small Cap Value	\$1.37 B*
▪ Small-Mid Cap Value (I & II)	\$3.37 B*
▪ Mid Cap Value	\$298 MM
▪ Large Cap Value Select	\$956 MM
▪ Dividend All-Cap Value (I & II)	\$2.52 B
▪ Focused Absolute Value® (I, II, & III)	\$1.66 B*
▪ International Value Equity (& ADR)	\$11 MM

*Currently not accepting new separate account relationships within the SCV, SMID, SMID II, FAV, FAV II, and FAV III Strategies.

Total Assets by Channel

Total Assets by Client Domicile

¹Total assets combine River Road's (1) total firm assets (as defined by GIPS®) and (2) advisory-only assets (no control over implementation of investment decisions and no trading authority). Total assets provided as supplemental information and advisory-only assets are reported on a one-month lag beginning April 2022. However, different reporting methodologies were used historically. As of June 30, 2022, \$2.41 B of total assets are advisory-only assets invested in the DAV II (\$1.49 B), SMID (\$359 MM), FAV II (\$248 MM), FAV (\$158 MM), DAV (\$113 MM), SCV (\$29 MM), LCVS (\$11 MM), and FAV III (\$6 MM) Strategies.

Firm Personnel As of 7/6/2022

- 48 associates; 17 investment professionals
- J. Alex Brown replaced Thomas S. Forsha, CFA as a supervising portfolio manager on FAV
- Equity research analyst offer accepted (anticipated August start); seeking to fill research coordinator position

With regard to research coverage, River Road has established a target coverage load of 25 to 30 names per analyst and 10 to 20 names per associate portfolio manager; the Chief Investment Officer (who carries director of research responsibilities) typically covers three to five names. Additionally, portfolio managers carry analyst coverage duties on select names, with typically up to five names of coverage responsibility per portfolio manager.

Market Review

Market Review As of 6/30/2022

- The post-COVID-19 bull market ended in Q2 as higher-than-expected inflation triggered a surge in interest rates.
- Small caps slightly underperformed large caps for the quarter, while value outperformed growth across the market cap spectrum.
- Among small caps, the Russell 2000 Value returned -15.28% for Q2 versus -19.25% for the Russell 2000 Growth. For both indices, it was the worst Q2 performance on record (since 1979).
- Year to date, the Russell 2000 Value returned -17.31% (second worst 1H on record behind 2020) versus -29.45% for the Russell 2000 Growth (by far, the worst first half on record).
- Despite a weak showing in June, 82% of active small cap value managers outperformed for Q2.¹

Market Review As of 6/30/2022

- Low beta significantly outperformed in Q2 while quality was mixed
- Credit spreads widened; era of uber-low default rate is likely over
- The Fed expressed a desire to move its Fed Funds Rate to neutral (2.25%-2.50%) “expeditiously”
- In June, the 10-year Treasury surged to 3.48% and stocks plunged into a bear market

Q2 2022 Performance Trend by Beta & ROE

Expected Fed Funds Rate (thru 12/2022)

Credit Spreads¹

July 1, 2007 - June 30, 2022

10-Year U.S. Treasury Yield

Performance trends by beta and ROE are provided by Jefferies LLC. Top right chart is shown from January 1, 2022 to July 8, 2022. Bottom right chart is shown from July 12, 2012 to July 11, 2022.

¹Credit spread is defined as the difference between the yield to maturity of the Merrill Lynch High Yield Master II Index and the yield to maturity of the 10-year U.S. Treasury Note. Source: Bloomberg; FactSet.

Prior to 2014, information is based on the Composite. Beginning 2014, information is based on a representative portfolio within the Strategy. Assessed valuation, multiple, and conviction determinations are made by River Road and are subject to revision. Conviction: 1.0 = highest; 5.0 = lowest. ¹Weighted average. ²Weighted average price percent of assessed valuation. The top 20 percent of assessed valuation reflects monthly values through December 31, 2009 and weekly values beginning January 1, 2010. Average calculated using the last value for the given quarter. ³Monthly weighted average multiple; excludes Financials sector and companies with non-cash flow-based valuations. All representative portfolio information is supplemental to the Composite presentation. Please see appendix for important disclosures about representative portfolios and for the disclosure presentation.

Unless otherwise noted, information is based on a representative portfolio within the Strategy. Unless otherwise noted, share-related characteristics are provided by FactSet. Portfolio and index characteristics are based on companies' most recent filings as of this report date (values for many companies may be as of the prior period). ¹Gross of fees; indicated yield does not anticipate special dividends. ²Underlying countries used to determine the breakdown between U.S. equity and non-U.S. equity are primarily determined by MSCI Inc. ³Average calendar year turnover. Dollar turnover, the lesser of purchases or sales as a percentage of the average market value, is presented as an average of all portfolios in the Composite. If one portfolio is not in the Composite for the entire period, turnover is the average annualized turnover of all portfolios in the Composite at the end of the period. ⁴Market cap and GICS sector breakdowns reflect percent of total portfolio. Stocks without a reported market cap (e.g., corporate reorganizations, mergers, acquisitions, and dissolutions) or sector are not presented. ⁵EBITDA excludes banks, thrifts, and insurers. ⁶Estimates based on ordinary shares for all ADR securities held. Index data source: London Stock Exchange Group PLC and its group undertakings (collectively, the "LSE Group"), © LSE Group. All representative portfolio information is supplemental to the Composite presentation. Please see appendix for important disclosures about representative portfolios and for the disclosure presentation.

Market Outlook

Market Outlook As of 6/30/2022

Looking Back

- Q3 2008:** ↑ “Given an appropriate time horizon, this will prove to be an exceptional buying opportunity.”
- Q3 2011:** ↑ “The current environment presents an exceptional investment opportunity.”
- Q4 2019:** ↑ “Although earnings growth is poised to improve in 2020 and the Fed is unlikely to raise rates, we believe very high valuations will keep a tight lid on upside and sets the stage for a meaningful pullback.”
- Q3 2020:** ↑ “Small cap value stocks have been in a stealth rally since July 10 and appear extremely well positioned as the recovery continues to unfold. However, given the abundance of political and health risks, investors should expect the path of the recovery to be jagged in the months ahead.”
- Q4 2020:** ↑ “A ‘Benjamin Button’ cycle is unfolding as favorable, early-cycle earnings and economic growth collide with extremely high, late-cycle valuations and sentiment.”
- Q1 2021:** ↑ “Absolute valuations are alarmingly high and investor sentiment is euphoric, but the recovery shows few, if any, signs of retreating. From a relative perspective, small cap still looks attractive versus large cap and value remains ‘dirt cheap’ compared to growth.”
- Q2 2021:** ↑ “U.S. stocks are expensive, but high prices rarely kill a bull market – especially when earnings growth is robust and interest rates are extremely low. Further, from a relative perspective, high quality small cap value stocks remain exceptionally well positioned.”
- Q4 2021:** ↑ “While our internal valuation measure is flashing a near-term warning, we believe high quality, small cap value stocks are well positioned to both lead the market and deliver positive returns in 2022.”
- Q1 2022:** ↓ “While high-quality and value-oriented stocks are relatively well positioned, the macro environment needs to improve for small caps to shine.”
- Q2 2022:** ↓ “A lot of bad news has been priced into small caps, but we are skeptical a sustainable bottom is in place.” **Expect modestly lower lows in the months ahead.**

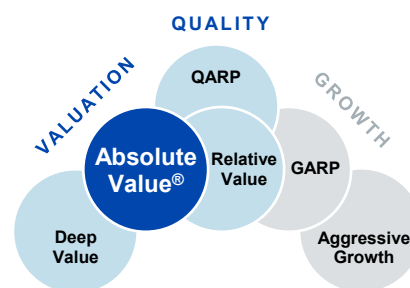

Looking Ahead

-  **Valuations / Earnings** – Absolute valuations are attractive, but earnings estimates are at risk; value still looks attractive relative to growth, but the relationship continued to compress quarter over quarter; small cap looks FANTASTIC relative to large cap
-  **Monetary** – Fed is pursuing the most aggressive tightening in 30 years; while recessions have historically started 25 months after a tightening cycle begins, the current pace suggests a recession will start sooner... or is already underway
-  **Fiscal / Washington** – Fiscal stimulus has declined sharply; midterm may bring a boost in sentiment
-  **Sentiment** – Many sentiment indicators registered extremely negative levels; CEO sentiment indicate a coming decline in earnings expectations
-  **Wildcards** – Commodities, housing, and the supply chain are giving mixed signals

Appendix

Absolute Value® Philosophy

The objective of River Road's Absolute Value® approach is to generate attractive, sustainable, low volatility returns over the long term, with an emphasis on minimizing downside portfolio risk.

■ Focused on excellent companies trading at compelling prices

Seeking well-managed, financially strong companies that generate predictable and sustainable cash flows and trade at attractive discounts, rather than challenged businesses trading at deep discounts or overvalued businesses that are only cheap relative to their higher-priced peers

■ Bottom-up portfolio construction

Emphasizing bottom-up portfolio construction based on River Road's specific Absolute Value® investment criteria

■ Seeking less efficient areas of the equity market

Seeking less efficient areas of the market, including smaller cap companies, companies whose shares are temporarily out of favor, and companies that are not yet promoted by Wall Street analysts

■ Risk averse

Employing a balanced approach to diversification and a structured sell discipline that seeks to reduce portfolio volatility and the risk of permanent loss of capital

SCV Investment Process

Investment guidelines (such as market cap, number of holdings, concentration limits, etc.) are working policies and, as such, may vary depending on market conditions and other factors and are subject to change without notification. ¹The Chief Investment Risk & Analytics Officer (CRO) is a function that is independent of the firm's investment management team. ²Threshold will vary depending on market conditions and timing of flows.

All portfolio holdings are presented. Unless otherwise noted, information is based on a representative portfolio within the Strategy. Percent of assessed valuation is a weighted average.

Assessed valuation and conviction determinations are made by River Road and are subject to revision. Conviction: 1.0 = highest; 5.0 = lowest.

All representative portfolio information is supplemental to the Composite presentation. Please see appendix for important disclosures about representative portfolios and for the disclosure presentation.

SCV M&A Activity

Q1 2021

Perspecta Inc. (PRSP) – Jan 2021

- **Take Out – Private Equity**
- Veritas Capital agreed to acquire PRSP for \$29.35/share in cash (+50% premium to price of stock in Nov 2020 when the company announced it would explore strategic alternatives).
- The offer valued PRSP at 10.9x fwd EBITDA versus the 10.5x used for the RRAM AV.
- Acquisition Price: **\$29.35/share** or 105% of RRAM AV of **\$28.00/share**
- **Position: Bought: Sep-20 Sold: May-21**

Cubic Corp. (CUB) – Feb 2021

- **Take Out – Private Equity**
- Elliott Inv't Mgmt and Veritas Capital submitted a \$70/share offer in Feb 2020. In Mar 2020, ST Engineering submitted a \$76/share offer which was later increased to \$78/share. Elliott/Veritas increased their bid to \$75/share which was accepted by CUB as it was deemed superior to the ST Engineering offer due to speed and certainty of close (+69% premium to the share price before Elliott disclosed it was interested in buying the company).
- The deal values CUB at 12.2x fwd EBITDA versus the blended 11.8x used for the RRAM AV.
- Acquisition Price: **\$75.00/share** or 103% of RRAM AV of **\$73.00/share**
- **Position: Bought: Jun-10 Sold: May-21**

Extended Stay America Inc. (STAY) – Mar 2021

- **Take Out – Strategic**
- Blackstone and Starwood Capital agreed to acquire STAY for \$20.50/share in cash (+21% premium to prior day's close).
- The offer valued STAY at 11.9x fwd EBITDA versus the 10.5x used for the RRAM AV.
- Acquisition Price: **\$20.50/share** or 121% of RRAM AV of **\$17.00/share**
- **Position: Bought: Oct-18 Sold: Jun-21**

Q2

ORBCOMM Inc. (ORBC) – Apr 2021

- **Take Out – Private Equity**
- GI Partners agreed to acquire ORBC for \$11.50/share in cash (+52% premium to prior day's close).
- The offer valued ORBC at 12.7x fwd EBITDA versus the 10.0x used for the RRAM AV.
- Acquisition Price: **\$11.50/share** or 128% of RRAM AV of **\$9.00/share**
- **Position: Bought: Apr-21 Sold: Aug-21**

Q3

J. Alexander's Holdings Inc. (CI A) (JAX) – Jul 2021

- **Take Out – Strategic**
- SPB Hospitality agreed to acquire JAX for \$14.00/share in cash (+14% premium to prior day's close).
- The offer valued JAX at 9.1x fwd EBITDA versus the 7.5x used for the RRAM AV.
- Acquisition Price: **\$14.00/share** or 117% of RRAM AV of **\$12.00/share**.
- **Position: Bought: Sep-15 Sold: Jul-21**

Q4

PAE Inc. (CI A) (PAE) – Oct 2021

- **Take Out – Strategic**
- Amentum agreed to acquire PAE for \$10.05/share in cash (+70% premium to prior day's close).
- The offer valued PAE at 8.3x fwd EBITDA versus the 8.2x used for the RRAM AV.
- Acquisition Price: **\$10.05/share** or 101% of RRAM AV of **\$10.00/share**.
- **Position: Bought: Jun-21 Sold: Oct-21**

Vonage Holdings Corp. (VG) – Nov 2021

- **Take Out – Strategic**
- Ericsson agreed to acquire VG for \$21.00/share in cash (+28% premium to prior day's close).
- The offer valued VG at 3.75x EV/22e revs versus the 3.16x used for the RRAM AV (3.4x EBITDA on Consumer, 2.5x revs on UCaaS, 4.0x revs on CPaaS).
- Acquisition Price: **\$21.00/share** or 124% of RRAM AV of **\$17.00/share**
- **Position: Bought: May-19 Sold: Nov-21**

Q2 2022

CDK Global Inc. (CDK) – Apr 2022

- **Take Out – Financial**
- Brookfield Business Partners (BBU) agreed to acquire CDK for \$54.87/share in cash (+30% premium to 2/18/22 price which was the trading day prior to M&A rumors surfacing).
- The offer valued CDK at 11.5x fwd EBITDA versus the 12.5x used for the RRAM AV.
- Acquisition Price: **\$54.87/share** or 90% of RRAM AV of **\$61.00/share**.
- **Position: Bought: Mar-20 Sold: May-22**

Shown as supplemental information to the Composite presentation. Please see appendix for the disclosure presentation.

SCV Valuation Metrics As of 6/30/2022

- Historically, SCV is consistently more value oriented than the Russell 2000 Value based on the Strategy's primary metric, EV/EBITDA.
- SCV is less consistent based on price/earnings and price/book because the Strategy only utilizes these metrics on a small percentage of investments.
- The Strategy's emphasis on EV/EBITDA as a measure of value is widely supported by academic and professional studies.

Charts are shown beginning January 31, 2003. Information is based on a representative portfolio within the Strategy. Unless otherwise noted, share-related characteristics are provided by FactSet. Portfolio and index characteristics are based on companies' most recent filings as of this report date (values for many companies may be as of the prior period).

¹EBITDA excludes banks, thrifts, and insurers. ²Price/earnings excludes negative earnings. Index data source: London Stock Exchange Group PLC and its group undertakings (collectively, the "LSE Group"), © LSE Group. All representative portfolio information is supplemental to the Composite presentation. Please see appendix for important disclosures about representative portfolios and for the disclosure presentation.

SCV Quality Metrics As of 6/30/2022

- Higher profitability, faster growth, and lower leverage are typically associated with quality.
- Historically, the SCV Strategy exhibits consistently higher quality characteristics than the index.

Charts are shown beginning January 31, 2003. Information is based on a representative portfolio within the Strategy. Unless otherwise noted, share-related characteristics are provided by FactSet. Portfolio and index characteristics are based on companies' most recent filings as of this report date (values for many companies may be as of the prior period). ¹Estimates based on ordinary shares for all ADR securities held. ²EBIT and EBITDA exclude banks, thrifts, and insurers. Index data source: London Stock Exchange Group PLC and its group undertakings (collectively, the "LSE Group"), © LSE Group. All representative portfolio information is supplemental to the Composite presentation. Please see appendix for important disclosures about representative portfolios and for the disclosure presentation.

SCV Disclosures

Firm, Composite, and Performance: Past performance is no guarantee of future results. There is a risk that invested capital may be lost. River Road Asset Management, LLC ("RRAM") is a registered investment adviser formed in April 2005 and is majority owned by Affiliated Managers Group, Inc. Registration of an investment adviser does not imply a certain level of skill or training. This presentation may be presented by an employee of Affiliated Managers Group, Inc., AMG Funds, or another AMG entity, which are affiliates of RRAM. The Small Cap Value Composite contains fully discretionary small cap value equity accounts that seek capital appreciation by investing primarily in small cap value domestic equity securities that trade at a discount to our valuation as determined using RRAM's proprietary Absolute Value® approach. For this Composite, RRAM defines a small cap company as one whose market capitalization is less than \$4 B. RRAM selects securities from a universe of companies with a market capitalization at the time of initial purchase typically between \$150 MM and \$4 B, employing a value-driven, bottom-up fundamental approach. The official benchmarks for the Composite are the Russell 2000 Value and the Russell 2000 indices. The Russell 2000 Value index measures the performance of small-cap value segment of the U.S. equity universe. It includes those Russell 2000 companies that are considered more value oriented relative to the overall market as defined by Russell's leading style methodology. The Russell 2000 Value index is constructed to provide a comprehensive and unbiased barometer for the small-cap value segment. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set and that the represented companies continue to reflect value characteristics. The Russell 2000 index measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000 index is a subset of the Russell 3000 index representing approximately 10% of the total market capitalization of that index. It includes approximately 2000 of the smallest securities based on a combination of their market cap and current index membership. The Russell 2000 is constructed to provide a comprehensive and unbiased small-cap barometer and is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set. All other indices are shown for additional information only. Composite performance may differ materially from the indices as the Composite only invests in a subset of the securities contained in the indices and also invests in securities not contained in the indices. The Composite was created on April 1, 2005 and inception on January 1, 1998. In addition to the normal risks associated with investing, investments in smaller companies typically exhibit higher volatility. As of January 1, 2016, there is no minimum account size for this Composite. The minimum account size was \$250,000 previously. RRAM claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. RRAM has been independently verified for the periods April 1, 2005 through December 31, 2021. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Small Cap Value Composite has had a performance examination for the periods of April 1, 2005 to December 31, 2021. The verification and performance examination reports are available upon request, as well as a list of composites descriptions and policies for valuing investments, calculating performance, and preparing GIPS Reports. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Results are based on fully discretionary accounts under management, including those accounts no longer with RRAM. The U.S. dollar is the currency used to express performance. Throughout the presentation Composite performance is presented gross of investment management fees, after the deduction of trading costs and includes the reinvestment of income. Composite performance is also presented gross of foreign withholding taxes on dividends, interest income, and capital gains. Unless otherwise noted, performance provided for periods greater than one year is annualized.

Performance presented prior to April 1, 2005 occurred while the original members of the portfolio management team were affiliated with a prior firm and those portfolio management team members were the only individuals primarily responsible for selecting the securities to buy and sell. A review of this track record for compliance with portability requirements of the GIPS® standards was conducted by Ashland Partners & Company.

The Composite included an account where transaction expenses are bundled with other expenses for the account. Therefore, transaction expenses for this account were not included in the performance calculation while this account was included in the Composite (account closed in 2020). Bundled fee accounts typically pay a fee based on a percentage of assets under management. Other than brokerage commissions this fee may include investment management, portfolio monitoring, consulting, and custodial services. Bundled fee accounts made up less than 1% of Composite assets as of each year end shown when such account was in the Composite.

This presentation may include information for a River Road strategy other than the one you are invested in or are considering for investment. Each slide or data set is labeled to show which strategy is being presented.

Effect of Management Fees: A client's return will be reduced by investment management fees and other expenses incurred by the client. The collection of fees produces a compounding effect on the total rate of return net of investment management fees. As an example, the effect of investment management fees on the total value of a client's portfolio assuming (a) quarterly fee assessment, (b) \$1,000,000 investment, (c) portfolio return of 8% a year, and (d) 1.00% annual investment advisory fee would be \$10,416 in the first year, and cumulative effects of \$59,816 over five years and \$143,430 over 10 years.

A fee schedule is an integral part of a complete presentation. The standard fee schedule for Small Cap Value Composite individually managed accounts is as follows: first \$10 MM is 1.00% of assets, next \$15 MM is 0.95% of assets, next \$25 MM is 0.90% of assets, and thereafter is 0.80% of assets. This information can also be found in RRAM's Form ADV Part 2. Actual fees vary.

Holdings: The holdings are presented to illustrate an example of the securities in which the portfolio may be invested and may not be representative of the portfolio's current or future investments. There is no assurance that any of the stocks may be purchased or may be held in a portfolio. The stocks identified may not represent all of the investments held by a portfolio. The holdings may change at any time. It should not be assumed that any investment was or will be profitable. The holdings are shown as supplementary information only and complement the Composite presentation. Past performance is no guarantee of future results. RRAM will provide you with a list of all recommendations made within the past year if you so request. Historical sector classifications reflect the September 30, 2016 inception of the Real Estate sector (prior to this date, these stocks were classified within the Financials sector) and the September 30, 2018 transition from Telecommunication Services to Communication Services.

SCV Disclosures

Characteristics: The tables are presented to illustrate the characteristics and sector weightings that reflect how an example portfolio may be invested and may not be representative of a portfolio's current or future investments. The characteristics may change at any time and it is not known whether underlying portfolio investments were or will be profitable. The characteristics are shown as supplementary information only and complement the Composite presentation. Past performance is no guarantee of future results. Most company share-related characteristics exclude outliers. Outlier exclusion methods include interquartile and inverse interquartile; the universe for determining outliers is the Russell 3000. For more information, please contact RRAM. Unless otherwise noted, share-related characteristics are provided by FactSet. Portfolio and index characteristics are based on companies' most recent filings as of this report date (values for many companies may be as of the prior period).

Attribution: Sector, Industry Group, Industry, or Sub-industry group levels are determined at the beginning of each month according to the Global Industry Classification Standard ("GICS"), developed and exclusively owned by MSCI Inc. ("MSCI") and Standard & Poor's Financial Services LLC ("S&P"), unless otherwise stated that they have been reclassified or classified by RRAM. Reclassifications/classifications by RRAM are not supported by S&P or MSCI. All GICS data is provided "As Is" with no warranties. RRAM may classify securities that are not automatically classified by MSCI and S&P. Discrepancies between official RRAM reported performance and the performance values found in attribution analysis may occur due to the varied methodologies between RRAM and FactSet. Holdings-based attribution analysis is generated for all periods in which the start date is prior to 2007. Holdings-based attribution is less precise; performance discrepancies may be greater for these periods.

Representative Portfolios: Where indicated throughout this presentation, the data presented is based on a representative portfolio. If no single representative portfolio is available to represent the Strategy since inception, different representative portfolios and/or the composite are used for different periods to create a continuous representative portfolio. The representative portfolio is selected by the firm as a representative account that is deemed to best represent this management style using a pre-defined, objective set of criteria. All representative portfolio data is shown as supplemental information to the Composite presentation. Each client portfolio is individually managed and may vary from the information shown for the representative portfolio.

Annual Information: Performance presented net of fees is after the deduction of trading costs and management fees and includes the reinvestment of income. Net of fee performance is calculated using actual management fees, which includes performance fees for some periods.

Manager Replacement Search Overview

July 28, 2022

2018 2019 2020 2021

We are proud to announce that ACG has again been named a Greenwich Associates Quality Leader – recognized as one of the top consultants in the industry.

Methodology and Disclosure: Between July and October 2021, Coalition Greenwich (previously known as Greenwich Associates), conducted in-person and phone interviews and online surveys with 811 professionals at 661 of the largest tax-exempt funds in the United States, including corporate and union funds, public funds, endowments and foundations, insurance general accounts, and healthcare organizations, with either pension or investment pool assets greater than \$150 million. Study participants were asked to provide quantitative and qualitative evaluations of their asset managers and investment consultants, including qualitative assessments of those firms soliciting their business and detailed information on important market trends. ACG is one of four firms recognized in the mid-size investment consultant category. The ratings may not be representative of any one client's experience with ACG; rather they are representative of those clients that chose to participate in the survey. The results are not indicative of ACG's future performance. ACG does not pay to have its clients participate in the study.

- The Defined Benefit (DB) Plan's **US Small-Mid Cap Growth Equity allocation** and the Defined Contribution (DC) Plan's **US Small Cap Growth Equity mandate** have been managed by TimesSquare.
- Over the last few months, **TimesSquare announced a significant drop in the Small-Mid Cap Growth strategy's AUM and a notable personnel change with Tony Rosenthal's upcoming retirement.** Tony is a founding partner and co-portfolio manager on the Small-Mid Cap Growth and Small Cap Growth strategies.
- Due to these factors and the potential exit of other investors, **ACG recommended that OkMRF review other potential candidate managers** for the Small-Mid Cap Growth and Small Cap Growth mandates.
- **At the June Board Meeting, ACG reviewed four potential candidates** for the DB and DC Plan mandates. Based on the ensuing discussion and the Board's feedback, the list of four candidates was **narrowed down to two candidates to interview at today's Investment Committee meeting (Loomis Sayles and William Blair).**
- Following today's interviews, **ACG will be looking for further direction** on which replacement manager the Investment Committee wants to recommend to the Board.

Small/Mid Cap Growth

For the Period Ending March 31, 2022

Firm Details

In 1926, Robert Loomis and Ralph Sayles formed a partnership and established Loomis Sayles as an investment management company in Boston. In 1968, a majority interest in the firm was sold to New England Mutual Life Insurance Company. In October 2000, CDC IXIS Asset Management (subsequently renamed Natixis Global Asset Management), a well-respected French asset management firm with operations worldwide, acquired a controlling interest in Loomis. Today, Loomis is a wholly-owned subsidiary of Natixis. Fixed income, which accounts for approximately 70% of the total firm assets under management, is comprised primarily of multi-sector, global, core plus, and high yield bond portfolios. The equity portion is predominantly large cap growth, large cap value, small/SMID value, and small/SMID growth.

Organization

Address	One Financial Center, 25th Floor Boston, Massachusetts 02111
Firm Inception	1926
Team Location(s)	Boston, Massachusetts
Firm Assets	\$335,938 (Millions)
Ownership Structure	100% Natixis Global Asset Management

Investment Strategy

This team believes they can identify high quality growth businesses that have the ability to generate superior investment returns with lower volatility than the benchmark and peers. Initially, a proprietary growth screen ranks the investable universe using three factors and then generates an aggregate score. The three factors are an earnings power score, a 3-month thermometer, and a 6-month thermometer. The earnings power score combines historical earnings growth and stability with forward-looking earnings revisions. The 3- and 6-month thermometers rank stocks based on performance and share turnover. The combined score from the three factors allows team members to identify a sub-group of stocks with top tier growth and understated earnings power which have not been fully exploited by the market. The team also identifies new ideas through its ongoing fundamental research effort. Analysts meet with prospective company management teams and then establish price targets for each company based primarily on Discounted Cash Flow (DCF) valuation work. All new ideas must be approved by John and Mark prior to purchase.

Strategy Information

Strategy Assets

Investment Thesis

Loomis' SMid Growth strategy is attractive for several reasons. First, this team, which is led by two experienced portfolio managers, is dedicated exclusively to the management of small to mid cap growth portfolios. They are not distracted by having to manage or support other disciplines within Loomis. Secondly, the team is able to focus on researching smaller cap companies because they have the resources of a large parent organization that handles all of the back office-type of functions. Furthermore, the process focuses on higher quality businesses, which helps limit the volatility of the portfolio's returns. Although this particular strategy only has a track record going back to the beginning of 2012, the team's results in the Small Cap Growth strategy have been superior to those of the benchmark and peers over longer periods of time and is indicative of the team's overall stock-picking capabilities.

Market Cap

Commentary

The SMid Cap Growth strategy underperformed the Russell 2500 Growth index by 215 bps (-14.46% vs -12.30%) in the first quarter. But following strength in 2021, the strategy remains ahead of the benchmark with upside of 952 bps on a one-year basis (-0.59% vs -10.12%), 188 bps on a three-year basis (+14.87% vs +12.99%), and 262 bps on a five-year basis (+15.85% vs +13.22%). Stock picking drove the lion's share of underperformance in the quarter with additional downside from sector allocation. The biggest detractor came out of the IT sector offset in part by strong Health Care picks. On a sector basis, the underweight to Energy hurt the portfolio with the sector posting the only positive absolute return in the quarter within the benchmark and portfolio.

SMid Cap Growth

For the Period Ending March 31, 2022

Firm Details

William Blair & Company is a Chicago-based investment firm that was founded in 1935 with roots in small cap investing. The Company is one of the larger independent investment firms (over 1,000 employees and roughly 185 partners). The general firm philosophy is that high quality companies with significant growth opportunities offer the greatest investment potential over longer time periods. The firm defines quality growth companies as those that can achieve a higher growth rate for a longer period of time than the market expects.

Organization

Address	The William Blair Building, 150 North Riverside Plaza Chicago, Illinois 60606
Firm Inception	1935
Team Location(s)	Chicago, Illinois
Firm Assets	\$70,121 (Millions)
Ownership Structure	100% Employee-owned

Investment Strategy

William Blair employs a disciplined, research-intensive approach to analyzing companies. The team strives to identify superior quality growth companies (i.e. those companies that can achieve a higher growth rate for a longer period of time than the market expects). In doing so, the team invests in 65 - 80 quality small to mid cap growth companies. The analysts and portfolio managers utilize various quantitative tools and company meetings to identify new ideas. Once a new idea is discovered, the analyst or portfolio manager will conduct brief due diligence to determine whether the company meets the following quality growth criteria: 1) strong management team; 2) sustainable business model; and 3) attractive financials. In-depth fundamental research is then performed by the appropriate PM/analyst. One of the PMs will partner with the analyst from the centralized research group to complete the due diligence process. If the sponsoring PM becomes convinced that the company offers a good investment from a quality growth perspective, he will then meet with the other portfolio manager to present and debate the idea prior to inclusion into the portfolio.

Strategy Assets

Investment Thesis

William Blair's SMid Growth team seeks to invest in high quality growth companies. The investment team is led by two seasoned investors that work closely together with a focused team of centralized research professionals. The firm is 100% employee-owned and team members on this strategy participate in ownership and are investors in the strategy alongside clients. Historically, the portfolio's returns have also tended to hold up better than the returns of the benchmark in down market environments.

Market Cap

Commentary

William Blair outperformed the Russell 2500 Growth by 310 bps (-9.20% vs -12.30%) in the first quarter. The strategy leads the index by 553 bps (-4.59% vs -10.12%) on a one-year basis, by 145 bps (+14.45% vs +12.99%) on a three-year basis, and 255 bps (+15.78% vs +13.22%) on a five-year basis. Stock picking drove the majority of outperformance in the quarter alongside a favorable sector allocation effect. The team's Healthcare picks provided the biggest upside to relative returns for the quarter and full-year, in part due to largely avoiding the Biotech sell-off. In regards to sector allocation, the team's overweight to Energy, the only positive sector in the benchmark, provided a bit of protection from the broader sell-off.

Disclosures and Legal Notice

The views expressed herein are those of Asset Consulting Group (ACG). They are subject to change at any time. These views do not necessarily reflect the opinions of any other firm.

This report was prepared by ACG for you at your request. Although the information presented herein has been obtained from and is based upon sources ACG believes to be reliable, no representation or warranty, express or implied, is made as to the accuracy or completeness of that information. Accordingly, ACG does not itself endorse or guarantee, and does not itself assume liability whatsoever for, the accuracy or reliability of any third party data or the financial information contained herein.

Certain information herein constitutes forward-looking statements, which can be identified by the use of terms such as "may", "will", "expect", "anticipate", "project", "estimate", or any variations thereof. As a result of various uncertainties and actual events, including those discussed herein, actual results or performance of a particular investment strategy may differ materially from those reflected or contemplated in such forward-looking statements. As a result, you should not rely on such forward-looking statements in making investment decisions. ACG has no duty to update or amend such forward-looking statements.

The information presented herein is for informational purposes only and is not intended as an offer to sell or the solicitation of an offer to purchase a security.

Please be aware that there are inherent limitations to all financial models, including Monte Carlo Simulations. Monte Carlo Simulations are a tool used to analyze a range of possible outcomes and assist in making educated asset allocation decisions. Monte Carlo Simulations cannot predict the future or eliminate investment risk. The output of the Monte Carlo Simulation is based on ACG's capital market assumptions that are derived from proprietary models based upon well-recognized financial principles and reasonable estimates about relevant future market conditions. Capital market assumptions based on other models or different estimates may yield different results. ACG expressly disclaims any responsibility for (i) the accuracy of the simulated probability distributions or the assumptions used in deriving the probability distributions, (ii) any errors or omissions in computing or disseminating the probability distributions and (iii) and any reliance on or uses to which the probability distributions are put.

The projections or other information generated by ACG regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results. Judgments and approximations are a necessary and integral part of constructing projected returns. Any estimate of what could have been an investment strategy's performance is likely to differ from what the strategy would actually have yielded had it been in existence during the relevant period. The source and use of data and the arithmetic operations used for calculating projected returns may be incorrect, inappropriate, flawed or otherwise deficient.

Past performance is not indicative of future results. Given the inherent volatility of the securities markets, you should not assume that your investments will experience returns comparable to those shown in the analysis contained in this report. For example, market and economic conditions may change in the future producing materially different results than those shown included in the analysis contained in this report. Any comparison to an index is for comparative purposes only. An investment cannot be made directly into an index. Indices are unmanaged and do not reflect the deduction of advisory fees.

This report is distributed with the understanding that it is not rendering accounting, legal or tax advice. Please consult your legal or tax advisor concerning such matters. No assurance can be given that the investment objectives described herein will be achieved and investment results may vary substantially on a quarterly, annual or other periodic basis. There is no representation or warranty as to the current accuracy of, nor liability for, decisions based on such information.
