PIMCO: Annual Update from Investment Manager - Mariko Boswell and Georgi Popoc Boswell introduced colleagues Sheldon Fox, Relationship Manager, Bransby Whitton, Product Strategist, and Tony Crescenzi, Portfolio Manager. She thanked OkMRF for their continued support of the Real Assets strategy since 2016.

Whitton began the presentation with an overview of the historical frequency of different market environments and which asset classes best perform under certain economic conditions. The Real Assets strategy allows PIMCO to seek opportunities across the global market and have flexibility during various market conditions. Whitton reviewed the strategy's composition; 40% TIPS, 25% commodities, and 35% REITs. The allocations are all actively managed on a moderate scale and based on the weights of each sector within the Consumer Price Index (CPI). Whatley questioned whether the REITs allocation was composed of residential housing only and Whitton confirmed the allocation holds residential, commercial, and industrial exposures.

Whitton continued the presentation by reviewing the multi-real asset investment team. Portfolio managers are supported by a large team of specialists in each sector. Despite a bounce back in the fourth quarter, the strategy reported negative returns of 9.62%, net of fees for the year. Both TIPS and REITs were challenged throughout the year due to the Fed's continued monetary policy tightening. However, during the fourth quarter, the expectation of a looser monetary policy going forward caused U.S. yields to rally and the strategy outperformed the respective benchmark by 55 bps. Commodities, especially energy, had robust performance in the first three (3) quarters of 2022, but as energy prices fell, the sector ended the fourth quarter in negative territory.

Looking forward, as inflation begins to moderate and growth appears to be slowing, PIMCO will continue active management across TIPS with an underweight duration positioning overall, a focused effort on individual securities selection within the REITs sector and continue their broad market assessment in the commodities sector.

6. Consideration and Possible Action Regarding Investment Committee Report

A. PIMCO: 2022 Year in Review with Global Economic Update - Tony Crescenzi

Crescenzi provided an economic recap of 2022 noting how the investor's assumption of the Fed increasing interest rates by around 1%, but in reality, the Fed increased rates by 4% was one of the largest detractors for market returns and a main reason for muted GDP growth.

Looking forward to 2023, Crescenzi discussed attractive areas of the market for investors to look to gain alpha. Bonds appear favorable in a long-term portfolio as average yields have increased to 4.3% in the Bloomberg U.S. Aggregate and investment grade credit bonds could potentially see yields above 5.0%. As core fixed income begins to stabilize, interest rate and equity market volatility ought to decline in the coming year. Crescenzi discussed reasons not to be pessimistic in 2023, noting those investors with a long-term orientation should have 'dry powder' on hand to allow for flexibility within their portfolio.

B. ACG: Review and Discussion of Monthly ASAP Reports

Moore began the presentation with a quick recap of 2022 noting nearly every sector faced challenges, except for private real estate which is lagging in reporting the negative impacts of rising inflation and geopolitical events. Returns began to rebound in January as investors expect the Fed to pause monetary tightening and China to reopen. International equities have rallied during the first month of 2023 reporting returns of almost 10.0%. Domestic equities and bonds are in positive territory despite a slowing economy.

Moore reviewed the DB portfolio noting assets totaling over \$646 million with a ten (10) year annualized return of 7.42% while taking on less risk relative to the policy index. Moore reviewed the long-term transition plan as the long/short portfolio unwinds and investment into private equity begins to form over the next several years. Until the transition is complete, target versus actual portfolio allocations will remain underweight. A challenging year concluded with the majority of investors being in negative territory due to rising inflation and geopolitical

events. Moore encouraged Trustees to view the market downturn as creating a buying opportunity to support the sustainability of the portfolio long term and not forget how well markets have performed over the past decade. The funding for Emerging Market manager, Axiom Investors, was completed in the first week of January and will be listed in the reports presented at the February meeting.

Moore concluded his presentation with a high-level review of the DC portfolio stating value managers fared better than growth managers in 2022. Long term performance remains strong even with the drawdown in 2022. The replacement manager, Axiom, in the white-label international sleeve for the Emerging Market underlying manager, was also funded in the first week of January and will be listed in the reports presented at the February meeting.

C. ACG: Asset Allocation and Capital Market Assumptions Review

Moore reviewed ACG's capital market assumption modeling tool which utilizes two (2) sets of assumptions, intermediate (5-10 years) and long term (10+ years). While 2022 was a challenging year, intermediate assumptions increased from the previous year due to higher interest rates and lower valuations for Fixed Income and Equities. Real Estate assumptions were reduced due to lower cap rates. Overall, the simulated portfolio statistics increased to 7.86% for the ten (10) year median return and 8.47% for the twenty (20) year median return. The updated asset allocation mix is appropriate to achieve the portfolio's long-term rate of return hurdle but could be harder to achieve over the intermediate term.

D. Review of OkMRF 2022 Highlights and 2023 Initiatives

Moore began discussion by thanking the Board for their continued commitment to education and guidance of both the DB and DC portfolios. Moore reviewed the highlights from the past year noting multiple Trustee and Staff education sessions, the executed transition within the Real Estate portfolio resulting in additional investments into JPMorgan SPF and SSPF, and an initial investment with Clarion Lion Industrial Trust, replacement of TimesSquare with William Blair within the small-mid cap equity allocations in the DB and DC plans, replacement of Harding Loevner with Axiom Investors within the emerging market equity allocations in the DB and DC plans, the approval of the long term goal of liquidating the long/short portfolio and initiating an allocation to the private equity within the DB plan, an investment manager fee and peer group comparison, and on-site due diligence with JPMorgan Core Bond team to review management and operations.

Initiatives for 2023 will include a continuation of oversight on both the DB and DC portfolios, educational sessions highlighting infrastructure, international equity allocation manager review, continued private equity education with initial transition steps, on-site due diligence trip to Boston, and investment manager fee and peer group comparison.

E. Consideration and Possible Action Regarding SSgA Proxy Voting Program Investor Letter as Recommended by the Investment Committee and Rejection tor Approval of any Amendments Proposed and Considered by the Trustees at the Meeting

Luckett referred to the memo provided by CEO. Both Davis and ACG agree the Institutional Shareholder Services (ISS) proxy voting policies presented by SSgA align with OkMRF practices.

Motion made by Luckett, seconded by Park to authorize Staff to work with SSgA Relationship Manager to begin the process to direct that the ISS Public Fund Policy applies with respect to OkMRF's investments in the eligible SSgA funds and any future fund that become available with SSgA.

Motion carried: AYE: Barnett, Doolen, Johnson, Luckett, Park,

Rooney, Reames, and Tinker

NAY: None

F. Consideration and Possible Action on Reallocation and/or Rebalancing of Assets Among Investment Managers as Recommended by the Investment Committee and Rejection or Approval of any Amendments Proposed by the Trustees at the Meeting Luckett referred to the rebalancing recommendation provided by ACG, as well as the memo provided by CEO.

Motion made by Luckett, seconded by Park to approve the transactions proposed by ACG's rebalancing recommendation. Transactions cover monthly pension payments by moving \$7 million from cash within the long/short equity portfolio, with \$4.5 million on hand, plus an anticipated \$2.5 million from liquidation proceeds. All residual long/short liquidation proceeds received in January are to be invested in SSgA S&P 500 Index Fund.

Motion carried: AYE: Barnett, Doolen, Johnson, Luckett, Park,

Rooney, Reames, and Tinker

NAY: None

7. Consideration and Possible Action Regarding Administrative Committee Report

A. Consideration and Possible Action Regarding Resolution 2023-1 Approving the Destruction of Certain Records as Recommended by the Administrative Committee and Rejection or Approval of any Amendments Proposed and Considered by the Trustees at the Meeting

Motion made by Johnson, seconded by Reames to approve Resolution 2023-1, approving the destruction of certain records.

Motion carried: AYE: Barnett, Doolen, Johnson, Luckett, Park,

Rooney, Reames, and Tinker

NAY: None

8. Consideration and Possible Action Regarding Contract Committee Report

No action taken.

9. Receive Report on Newly Adopted or Amended OkMRF Member Plans

Whatley reported on the plan change for the OkMRF Member.

10. OkMRF Staff Report

Girardi reported on her and Whatley's attendance at the Winter City Management Association of Oklahoma. Girardi attended a recent OML Municipal Clerks & Treasurers training held in Elk City. She will continue to attend the quarterly training sessions. The training is attended by smaller communities that are unable to attend conferences.

Cox reported on the following items:

Next month, Artisan will present an overview of the International Value investment in the non-U.S. allocation in the DB plan and the International Equity option in the DC plan.

- > Two (2) in-person Committee meetings will be held next month, and all Trustees are welcome to attend:
 - o Investment Committee meeting to be held on Thursday, February 23rd at 2:00 p.m. to discuss a semi-annual review of quarterly performance and private equity education and transition.
 - O Contract Committee meeting to be held on Friday, February 24th at 9:30 a.m. to discuss vendor evaluations and possible fiduciary liability and crime policy renewals.
- Discussed potential 457(b) provider replacement for OkMRF Staff. MissionSquare has provided unsatisfactory customer service and higher expense ratios. Staff has had initial conversations with Voya to discuss a potential pricing platform and transition.
- ➤ Provided an update on the DB Volume Submitter IRS review. Three (3) IRS representatives reviewed the DB plan and OkMRF received a preliminary compliance letter.
- ➤ TEXPERS Annual Conference to be held in Austin, April 2nd through April 5th. Luckett and Tinker are planning to attend.

Since inception performance information shown above is calculated using the date on which you first invested in the Fund as your "inception" date. The SEC (NAV-based) returns shown assume all fund distributions are reinvested but do not account for individual shareholder activity (shareholder subscriptions and redemptions). Account inception: 28 Apr 2010.

Past performance does not guarantee and is not a reliable indicator of future results. Investment returns and principal values will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown. Call 800.344.1770 for current to most recent month-end performance.

Source: Artisan Partners/MSCI. Returns less than one year are not annualized. Institutional Class performance is that of the Investor Class from 23 Sep 2002. Performance has not been adjusted to reflect the expenses of the Institutional Class for the period prior to the Class's inception, and Institutional Class performance results would differ if such expenses were reflected. Investor Class represents the oldest share class in the Fund and generally has higher expenses and lower minimum investments. Market values are based on trade date activity.

Portfolio Construction

Our portfolio construction strives to maximize expected return of the portfolio by weighting individual companies based upon the degree of undervaluation

- Most attractively valued candidates go into portfolio
- Weightings based on degree of undervaluation
- Typically 40-60 holdings
- Typically less than 15% cash

Diversification Overlay

- Maximum of 30% in emerging markets*
- Maximum of 25% in any one industry*
- Maximum of 35% in any one country*
- Maximum position size generally 5%*
- Ability to hedge currency defensively

^{*}Limitations apply at the time of purchase. See prospectus for more details. Refer to Notes and Disclosures for important information regarding weightings in the portfolio.

Sell Criteria

Our fundamental belief is that over the long term market price will converge with business value. Our sell criteria is no different than our buy criteria in terms of adhering to our business valuation discipline.

Business Valuation Discipline	Sell Criteria
Portfolio	Approaching or exceeding full valuation
Business Analysis	Reassessment of intrinsic value
Idea Generation	More attractive alternatives are identified

Top 10 Holdings

Company	Description and Investment Thesis	% of total portfolio
Arch Capital Group Ltd (United States*)	A Bermuda-based company that writes insurance and reinsurance on a worldwide basis. We are attracted to Arch's strong management team and disciplined underwriting track record.	5.8
Samsung Electronics Co Ltd (Korea)	A leader in smartphones, semiconductors and other electronic components. We believe Samsung's global scale and vertically integrated business model provide it with a competitive advantage.	5.4
Novartis AG (Switzerland)	Novartis is one of the world's largest pharmaceutical companies. It has a diversified business model and a strong R&D pipeline that we believe will contribute to future growth.	5.1
Danone SA (France)	Danone is a diversified French food company focused on dairy, baby nutrition and water. We are attracted to its world-class collection of assets and strong balance sheet. Danone's recent management changes should help close its margin gap relative to peers.	4.6
Compass Group PLC (United Kingdom)	The world's leading contract-catering business. This is a secular growth business as corporations continue to see the financial benefit of outsourcing their food service needs. The company is highly profitable as measured by return on capital and free cash flow generation, and its management is focused on generating value for shareholders.	4.1
ABB Ltd (Switzerland)	ABB is an industrial conglomerate that manufactures electronic products and equipment. We are attracted to ABB's strong balance sheet and believe it has potential to improve margins.	3.5
Willis Towers Watson PLC (United States*)	Willis Towers Watson operates as an advisory, broking and solutions company. We believe that valuation significantly undervalues this high-quality business.	3.2
Safran SA (France)	Safran is a designer and manufacturer of aircraft, defense and communication equipment and technologies. We are attracted to its business quality and believe its shares will eventually recover as air travel demand normalizes.	3.2
HCL Technologies Ltd (India)	HCL is an Indian multinational information technology services and consulting company. We are attracted to HCL's strong cost controls, robust balance sheet and rapid growth.	3.0
RELX PLC (United Kingdom)	A leading publisher and professional information provider. We are attracted to RELX's strong competitive positions and its subscription-based business model, which offers a recurring source of revenue and solid cash flow generation.	2.9

Current and future portfolio holdings are subject to risk. The value of portfolio securities selected by the investment team may rise or fall in response to company, market, economic, political, regulatory or other news, at times greater than the market or benchmark index. International investments involve special risks, including currency fluctuation, lower liquidity, different accounting methods and economic and political systems, and higher transaction costs. These risks typically are greater in emerging and less developed markets, including frontier markets. Securities of small- and medium-sized companies tend to have a shorter history of operations, be more volatile and less liquid and may have underperformed securities of large companies during some periods. Value securities may underperform other asset types during a given period.

Morningstar Fund Manager of the Year: Established in 1988, the Morningstar Fund Manager of the Year award recognizes portfolio managers who demonstrate excellent investment skill and the courage to differ from the consensus to benefit investors. To qualify for the award, managers' funds must have not only posted impressive returns for the year, but the managers also must have a record of delivering outstanding long-term risk-adjusted performance and of aligning their interests with shareholders'. Beginning in 2012, nominated funds must be Morningstar Medalists—a fund that has garnered a Morningstar Analyst Rating TM of Gold, Silver or Bronze. The Fund Manager of the Year award winners are chosen based on Morningstar's proprietary research and in-depth qualitative evaluation by its manager research analysts. Morningstar Inc.'s awards are based on qualitative evaluation and research, thus subjective in nature and should not be used as the sole basis for investment decisions. Morningstar's awards are not guarantees of a fund's future investment performance. Morningstar, Inc. does not sponsor, issue, sell or promote any open-end mutual funds including the Artisan Partners Funds. Past performance is not indicative of future results. Award criteria is based partly on an analysis of individual fund performance relative to peer group funds and nomination is not indicative of positive absolute performance for funds managed during the period.

Investment Performance Review

December 31, 2022

We are proud to announce that ACG has again been named a Greenwich Associates Quality Leader - recognized as one of the top consultants in the industry.

Methodology and Disclosure: Between July and October 2021, Coalition Greenwich (previously known as Greenwich Associates), conducted in-person and phone interviews and online surveys with 811 professionals at 661 of the largest tax-exempt funds in the United States, including corporate and union funds, public funds, endowments and foundations, insurance general healthcare organizations, with either pension or investment pool assets greater than \$150 million. Study participants were asked to provide quantitative and qualitative evaluations of their asset managers and investment consultants, including qualitative assessments of those firms soliciting their business and detailed information on important market trends. ACG is one of four firms recognized in the mid-size investment consultant category. The ratings may not be representative of any one client's experience with ACG; rather they are representative of those clients that chose to participate in the survey. The results are not indicative of ACG's future performance. ACG does not pay to have its clients participate in the study.

Definitions of Statistical Measures

Alpha - the annualized difference between the manager's actual return and the manager's expected return given its relative risk vs. the benchmark (which is represented by beta, a measure that tracks volatility to an index).

Batting Average - a measure used to quantify a manager's ability to meet or beat a benchmark. A manager who outperforms the benchmark 20 out of a possible 40 times has a batting average of 50.

Beta - measures the portfolio's sensitivity of returns to market movements represented by the primary benchmark.

Down Capture - demonstrates the ratio of the portfolio's average returns relative to the benchmark in periods in which the benchmark had a negative return. For instance, a down-capture of 96% indicates that, on average, the portfolio is down 96% when the benchmark is down 100%. Lower portfolio down-capture is preferred.

R Squared - the amount of the manager's return that can be explained by the benchmark. A R Squared of 100 indicates a perfect correlation, while a R Squared of 0 indicates no correlation at all.

Sharpe Ratio - a measure of return per unit of risk. Higher sharpe ratios are preferred while negative ratios are generally meaningless and cannot be used for comparison purposes.

Standard Deviation - a measure of the portfolio's volatility. A large standard deviation relative to the benchmark represents volatile portfolio returns.

Tracking Error - a measure that reports the difference between the return of a manager that is received and that of a benchmark that the manager is attempting to track.

Up Capture - demonstrates the ratio of the portfolio's average returns relative to the benchmark in periods in which the benchmark had a positive return. For instance, an up-capture of 96% indicates that, on average, the portfolio is up 96% when the benchmark is up 100%. Higher portfolio up-capture is preferred.

2/24/2023 Agenda Item: 7. B

Oklahoma Municipal Retirement Fund Investment Committee Meeting Private Equity Allocation Review & Recommendation

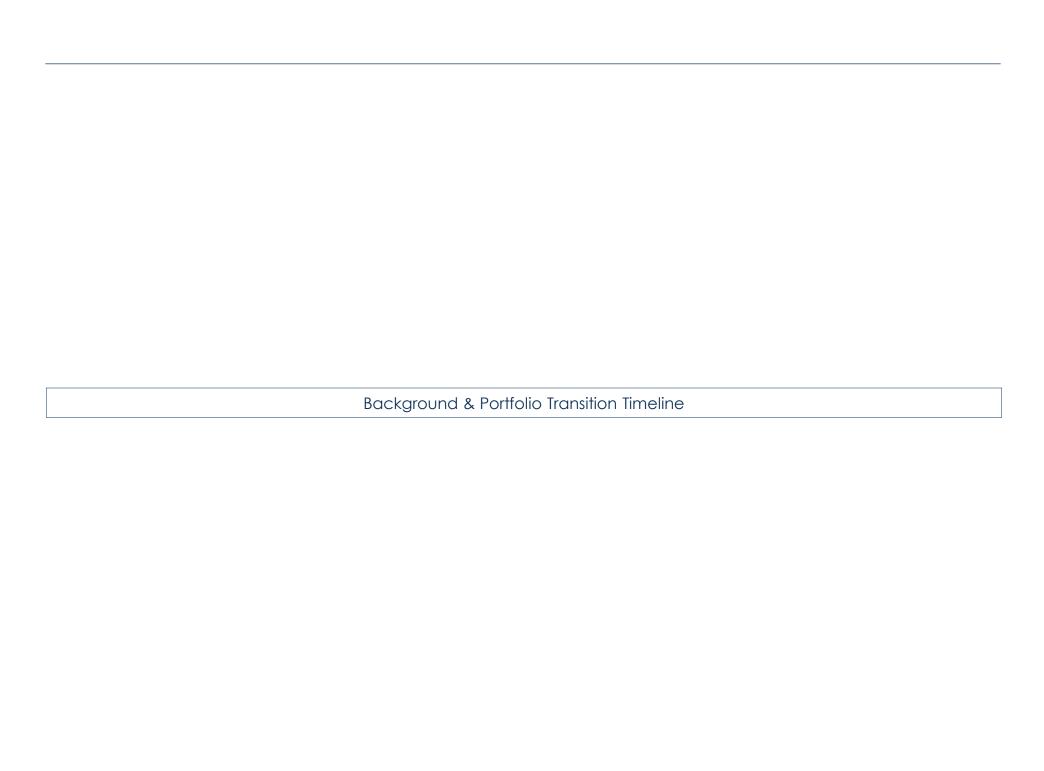

February 23, 2023

We are proud to announce that ACG has again been named a Greenwich Associates Quality Leader – recognized as one of the top consultants in the industry.

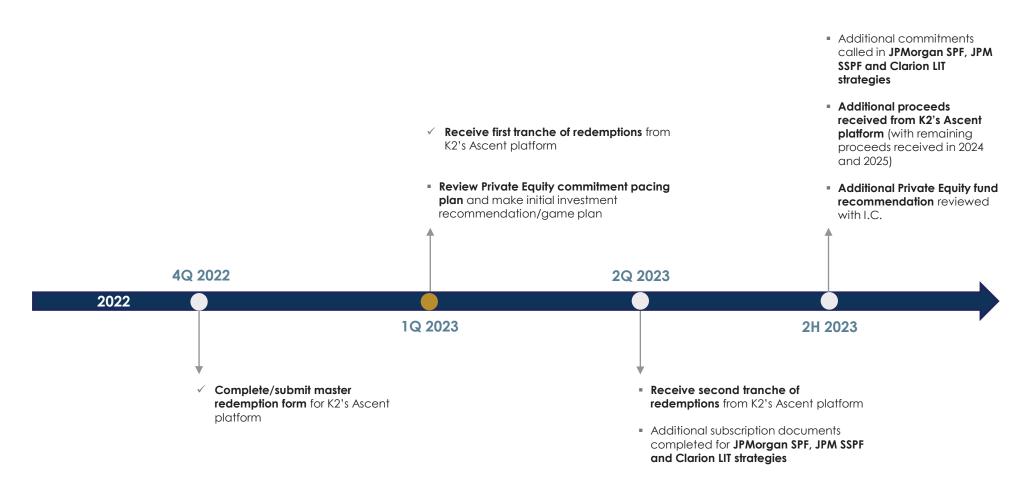

Methodology and Disclosure: Between July and October 2021, Coalition Greenwich (previously known as Greenwich Associates), conducted in-person and phone interviews and online surveys with 811 professionals at 661 of the largest tax-exempt funds in the United States, including corporate and union funds, public funds, endowments and foundations, insurance general accounts, and healthcare organizations, with either pension or investment pool assets greater than \$150 million. Study participants were asked to provide quantitative and qualitative evaluations of their asset managers and investment consultants, including qualitative assessments of those firms soliciting their business and detailed information on important market trends. ACG is one of four firms recognized in the mid-size investment consultant category. The ratings may not be representative of any one client's experience with ACG; rather they are representative of those clients that chose to participate in the survey. The results are not indicative of ACG's future performance. ACG does not pay to have its clients participate in the study.

Background

- At OkMRF's 2022 Trustee Retreat, the Board reviewed the current Equity portfolio in the Defined Benefit Plan. ACG provided additional education on the Global Equity opportunity set and discussed multiple return-enhancing asset classes, including Non-US Small/Mid Cap Equity, Emerging Markets Small/Mid Cap Equity and Private Equity.
- Based on feedback from the Board, ACG narrowed the scope of the Equity review to focus on Private Equity education for a follow-up discussion.
- At the August I.C. Meeting, an asset allocation analysis was reviewed to show the risk/return trade-offs of potential alternative asset allocation targets for the DB Plan. As part of this strategic discussion, the Board selected a new target asset allocation mix that includes a 5% target to Private Equity.
- Today's discussion will review the **DB Plan's portfolio transition plan**, **OkMRF's Private Equity commitment pacing plan and a Private Equity fund recommendation** for the I.C.'s consideration.

Items for Consideration

- Nearly all redemptions from K2's Ascent Platform will be received in 2023 and 2024. ACG will make more specific investment recommendations as the proceeds
 are received.
- The market environment for the DB Plan's current Real Estate strategies is expected to be challenged over the next couple quarters, which could slightly affect the timing of additional investments in these strategies.
- Private Equity managers/strategies will be reviewed with the Board as opportunities arise.

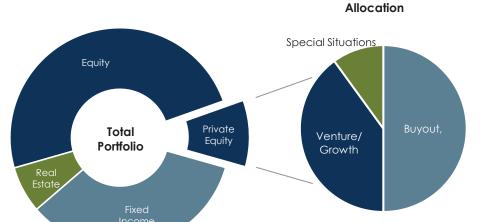

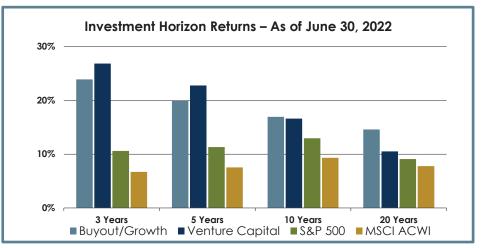

Private Equity: Return-enhancing alternative to public equity

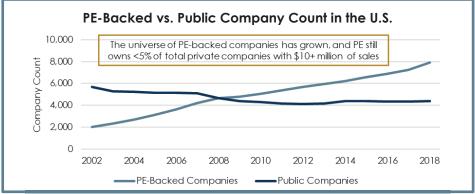

Case for Private Equity

- Consistent outperformance vs. public equity
- Broad company diversification; low penetration vs. opportunity set
- Return dispersion creates alpha opportunity via manager selection

Asset Allocation – 5% to 15% of Total Portfolio

7

	Buyout	Venture/Growth	Special Situations
Target Company Profile	Mature with steady cash flow	Earlier stage with rapid growth	Distressed
Target # of Active Managers	3 to 4	4 to 5	0 to 2

Sources: PitchBook, World Bank, NAICS Association, ACG Research. Notes: Target Net Returns are based on PitchBook historical median returns and ACG experience.

Private Equity

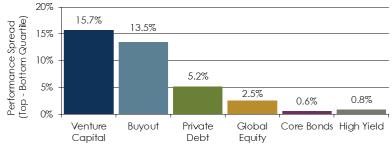

Thesis: Target proven managers with specialized teams, and consistently diversify across strategy and time

Key Considerations

- Manager Selection Meaningful driver of long-term excess return
- Return Dispersion Venture/growth, small/concentrated funds offer higher risk/reward
- **Specialization** Emphasize specialized teams over sector focus
- Access Not a given; position yourself for success
- Geography No clear return benefit for investing ex-U.S.

Manager Value Add – return dispersion creates opportunity

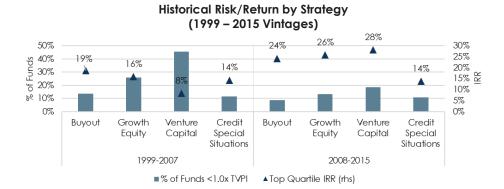

Consistency – Relative strategy returns vary over time, highlighting importance of diversification

Strategy Selection – Favor strategies that pair consistency with strong returns

Manager Selection – Prioritize manager quality over sector focus

Quartile Return by Vintage Year Cohort and Investment Style (1999 – 2015 Vintages)

Implementation Profile

- Foundation Build exposure through consistent annual commitments; target specialized teams that can deliver repeatable value creation
- Enhanced Return Favor buyout for its stable risk/return; include proven venture/growth or small/concentrated strategies to capture additional alpha
- Construction Build portfolios with complementary strategies and a reasonable firm count; diversify risk without sacrificing the return seeking role of the asset class

Public vs. Private Markets

Public Markets:

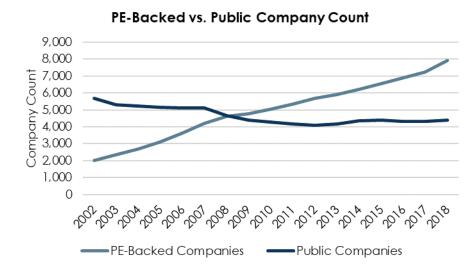

- Investments in publicly traded stocks.
- Information on companies is generally freely available.
- Companies are valued instantaneously and there is a mechanism to bring buyers and sellers together efficiently.
- Available to all individuals & institutions.
- Accessed directly, through a broker, money manager, or a mutual fund manager.
- Long-term or short-term strategies. Investments are marketable and liquid.

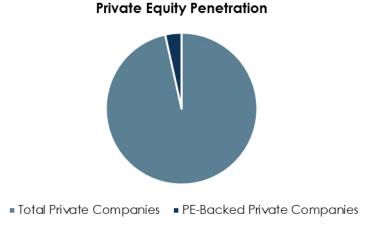

Private Markets:

- Investments in private companies (as opposed to owning and managing your own private company).
- Information on companies is private.
- Company valuations are difficult and inefficient.
- Typically available only to qualified purchasers.
- Accessed directly through a fund manager, or fund-of-funds manager.
- Long-term strategies investments are non-marketable / illiquid.

Private Equity Opportunity Set

- There are an estimated 7,900 private equity-backed companies in the U.S. and 4,400 U.S.-listed public companies, a stark shift from the early 2000s.
- Despite the increased role played by private equity, the industry's penetration of the overall private company landscape is still very low—only around 4% of U.S.-based private companies are backed by private equity.
- This illustrates the potential opportunity set for private equity investors.

10

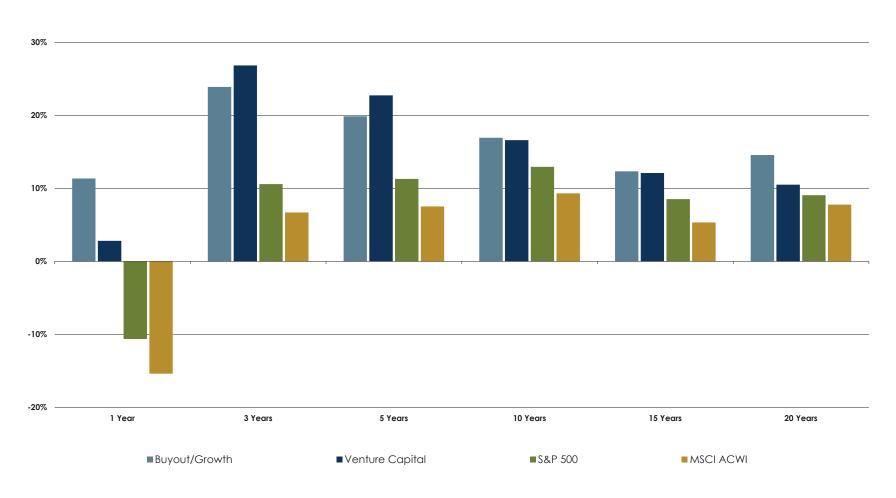

Source: Pitchbook, World Bank, NAICS Association, ACG estimates

Note: Total Private Companies includes private companies with at least \$10 million of annual revenue; PE-Backed Private Companies exclude venture-stage businesses

Private Equity Horizon Returns

Over long time horizons, private equity consistently outperforms public equity markets.

Investment Horizon Returns – As of June 30, 2022

Private Equity Return Dispersion

Relative strategy returns vary meaningfully over time, so it is **important to build a diversified portfolio**.

The importance of manager selection is amplified in private equity. The spread between top quartile and bottom quartile fund performance is many times the spread of public market investment strategies.

Performance Spread by Asset Class for 10 Years ending December 31, 2021

Note: Private Equity performance spread excludes the most recent 3 vintage years to eliminate outsize spreads typical seen early in funds' investment periods.

Stable Drivers of Return Premium

Capital Inefficiency

Less capital pursuing a larger, more diversified set of companies

Valuation Discount

Private businesses can be purchased for valuation multiples that are less than those observed in public markets

Alignment

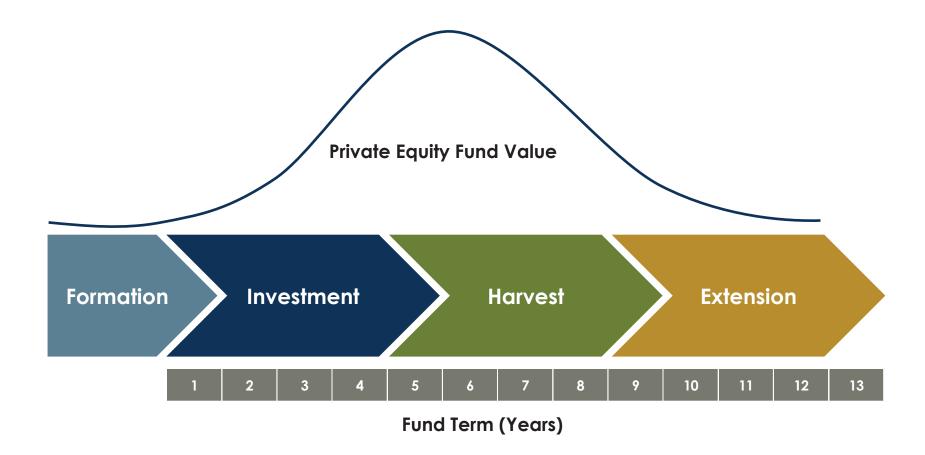

Long-term investment horizon with shared economic incentives for LPs, GPs and management teams

Hands-On Value Creation

Control orientation allows GPs to guide decision making and invest for growth

Typical Private Equity Fund Lifecycle

- Formation: This fundraising period can last a few months to a couple years, depending on interest from investors and capacity.
- Investment: The fund manager is actively making new investments and calling capital from investors to fund those acquisitions.
- Harvest: The value creation plan has been executed and the fund begins to exit investments and return capital to investors.
- Extension: The fund manager is working on disposing of the last assets and may utilize extensions to maximize remaining value.

Private Equity Portfolio Diversification

Venture Capital Buyout Credit Seed Stage Small Origination Origination strategies will typically not be included as part of the Private Equity allocation due to their lower return targets. However, significant equity exposure. **Growth Equity Special Situations** Large

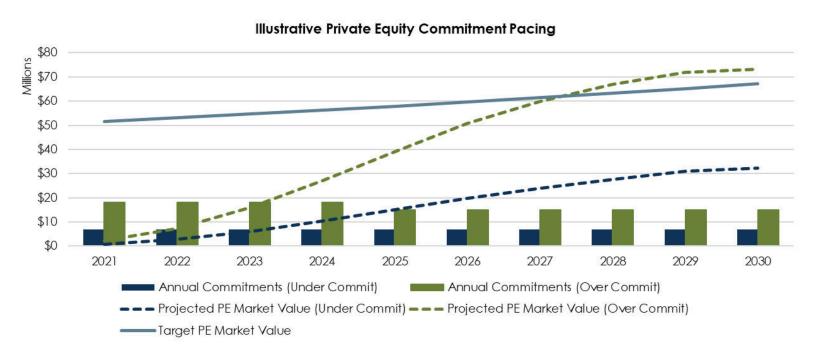

- The institutional private equity investment opportunity set includes thousands of funds across hundreds of sub-strategies. This universe can be categorized into three broad sectors: **Venture Capital, Buyout, and Private Credit**.
- The goal is to **build a diversified portfolio** of private equity managers that address each of these sectors.
- Prudent diversification is a key risk mitigating factor.

Investment Options and Vehicle Characteristics

Investment Factors	Direct Fund	Fund of Funds

Net Multiple Target	1.7x - 2.0x	1.5x - 1.7x

Private Equity Cash Flow Modeling and Commitment Pacing

- The goal of cash flow modeling is to create a commitment pacing plan that allows the private equity program to efficiently reach and maintain the long-term target allocation. Maintaining private equity exposure at or near the target allocation is a key component of risk control.
- Due to the nature of private equity cash flows, whereby capital is called over time and distributions serve to offset contributions later in a fund's life, an investor's max out-of-pocket percentage is typically only 60-70% of its total fund commitment.
- This dynamic means that an investor must "over-commit" in order to achieve the portfolio's target allocation.
- Repeated new commitments are also necessary to maintain a target private equity allocation.
- An investor's commitment pacing plan should be **developed using a customized cash flow analysis** that incorporates factors such as expected future cash spending needs and their preferred investment and strategy mixes.

Importance of Consistent Implementation

The negative impact of missing the top-performing vintage years is greater than the return enhancement from avoiding the lowest-performing years, so it is critical that investors maintain a consistent commitment pace across market environments.

- Starting from 0% exposure, it will take many years to approach the 5% private equity target allocation.
- Time or **vintage year diversification is an important private equity portfolio risk control**. Spreading commitments over multiple years reduces the chance that a portfolio experiences a dramatic negative impact from an inopportune entry point, like a recession.
- Marginally larger commitment sizes in the first two years of the program's development are designed to help build exposure.
- The recommended commitment pace will be adjusted annually to reflect the current value of the Total Portfolio, market conditions and any prior private equity commitments.

Private Equity Manager Pipeline

- With a commitment budget of \$20 million in 2023 and \$20 million in 2024, the baseline plan includes two to three commitments of \$15 to \$20 million each over the next two years.
- Future commitments will focus on building **strategy**, **time and manager diversification** and allow flexibility to take advantage of high quality investment opportunities when available.
- Highly successful fund managers most often open and close to investors quickly. It is important to remain nimble in order to take advantage of access dynamics.

Private Equity Commitment Recommendation

ACG has conducted thorough due diligence on the manager and proposed fund offering on an absolute basis as well as relative to other firms who carry out similar strategies. A recommendation is made for a commitment to the following fund:

Manager / Fund

Recommended Commitment Amount

Warburg Pincus Global Growth 14

\$20 million

- Warburg Pincus Global Growth 14 has closed on \$15.5 billion of its \$16 billion target size and is **expected to hold a final close before June 1, 2023**.
- Actual commitment to the above fund is subject to review of offering documents and Limited Partnership agreements by legal counsel.
- Based on the nature of this investment vehicle and the limited offering period, ACG believes the process used to identify and recommend this investment opportunity was prudent and appropriate.

Warburg Pincus Global Growth 14, L.P. ("WPGG 14" or "Fund 14" or the "Fund") provides an attractive option for investors seeking exposure to a proven, diversified global growth strategy. The Fund will employ a flexible investment mandate that allows it to pursue a range of transaction types, sectors, and geographies. However, the overarching thesis for the strategy is to find high quality, private companies that can generate sustainable growth and consistent profitability over time. Warburg has built its team to include both sector and functional experts, which allows it to be a value-add partner to its portfolio companies. The Firm is led by a stable team that has generated competitive results over multiple business cycles. WPGG 14 is targeting \$16.0 billion and will hold a final close by June 1, 2023.

Firm Info

• Warburg Pincus ("Warburg" or the "Firm") is a global private equity firm based in New York City that has ~\$66 billion of AUM. The Firm was founded in 1966 and raised its first fund in 1971. In 2000, Warburg completed a leadership transition following the retirement of two of the Firm's original founders. The Firm is majority-owned by its Partners and carried interest is shared broadly across the team. Warburg has grown to over 740 employees, including 75 Managing Directors among its more than 260 investment professionals. Since inception, the firm has invested more than \$94 billion in over 970 portfolio companies. The Firm opened its first investment office outside of the U.S. in 1987, and today it has eight international offices across South America, Western Europe, and Asia.

Investment Team

• The Firm is led by its Executive Leadership Team, which is comprised of Chip Kaye (CEO), Tim Geithner (President), and Steven Glenn (COO/CFO). Chip Kaye become the Firm's sole CEO in 2020 following the retirement of Joseph Landy, who served as co-CEO alongside Chip since the Firm's leadership transition in 2000. Warburg also has a 10-person Investment Management Group and a three-person Operations Management Group, which manage the Firm's global investment and back office functions. Warburg has developed a 75+ person Investment Support Group, which works with portfolio companies in areas like financial reporting, capital markets, and human capital.

Investment Process and Portfolio Construction

■ The Fund will continue Warburg's strategy of global growth investing at scale. Warburg will target 75-100 investments with a flexible investment range of ~\$50 million to over \$500 million. The Fund will primarily target growth and buyout investments in the following sectors: Technology, Healthcare, Business Services, Industrials, and Financial Services. The Fund will target a 50% - 60% allocation to North America, 15% - 20% to Europe, and 15% - 30% to Asia. However, Warburg does not have pre-determined allocations to any sector, geography, or transaction type. Like prior funds, the mix of investments in Fund 14 will reflect what the Firm views as the best available risk/return opportunities.

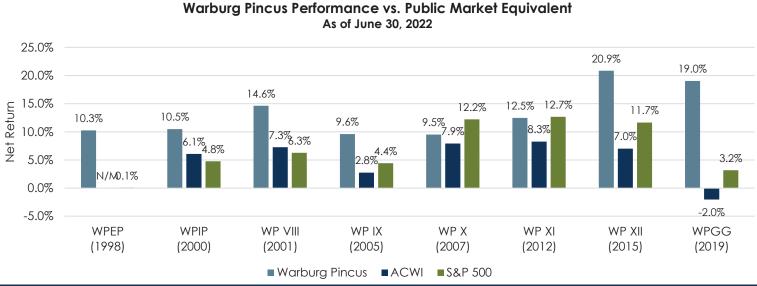

Fund Terms

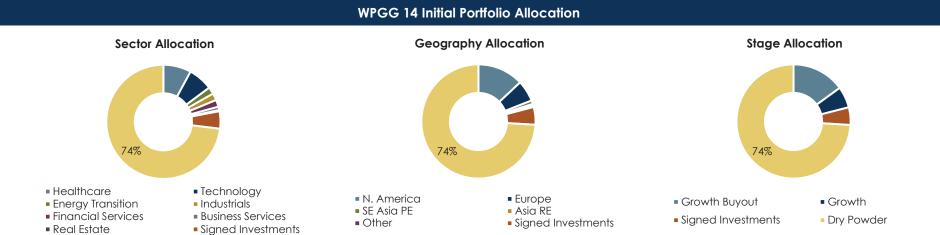

- Base Management Fee: 1.4% of commitments during the investment period; thereafter, the fee is charged on remaining cost with periodic step-downs to a floor of 1.0%
- Incentive Fee: 20%, so long as the Fund is valued at more than 1.25x net invested capital
- Minimum Investment: \$20 million stated, subject to manager discretion
- Fund Term: 12 years, but may be extended by the GP for up to two years with LPAC approval
- **GP Commitment:** At least \$1.0 billion (6.25% of the target size)
- Fundraising: \$15.5 billion closed/circled; final close will occur by June 1, 2023

Performance Objective

■ 12%-15% Net IRR and 1.60x-1.80x Net TVPI

- Warburg has consistently outperformed the peer group median. The Firm has also performed well versus the Public Market Equivalent, measured versus the ACWI and S&P 500.
- WPGG 14 is already 26% invested/committed across 20 investments. Companies in the portfolio grew revenue and EBITDA by 20% and 10%, respectively, over the last 12 months ending September 30, 2022.

Notes: Public Market Equivalent (PME) offers a comparison of private vs. public market returns by assuming that the private fund cash flows are invested in a given public market index.
