# Target audience

#### **Audience**

This document is being provided for informational purposes for discussion with professional investors and financial advisors only. Circulation must be restricted accordingly.

Nothing herein should be construed as an offer to enter into any contract, investment advice, a recommendation of any kind, a solicitation of clients, or an offer to invest in any particular fund, product, investment vehicle or derivative.

#### General risks

The value of investments, and any income generated from them, can fall as well as rise.

Costs and charges will reduce the current and future value of investments. Where charges are taken from capital, this may constrain future growth.

Past performance does not predict future returns. If any currency differs from the investor's home currency, returns may increase or decrease as a result of currency fluctuations.

Investment objectives may not necessarily be achieved; losses may be made.

Target returns are hypothetical returns and do not represent actual performance. Actual returns may differ significantly.

Environmental, social or governance related risk events or factors, if they occur, could cause a negative impact on the value of investments.

#### Specific fund risks - Oklahoma Municipal Retirement Fund

Currency exchange: Changes in the relative values of different currencies may adversely affect the value of investments and any related income.

Derivatives: The use of derivatives is not intended to increase the overall level of risk. However, the use of derivatives may still lead to large changes in value and includes the potential for large financial loss. A counterparty to a derivative transaction may fail to meet its obligations which may also lead to a financial loss.

Equity investment: The value of equities (e.g. shares) and equity-related investments may vary according to company profits and future prospects as well as more general market factors. In the event of a company default (e.g. insolvency), the owners of their equity rank last in terms of any financial payment from that company.

Emerging market (inc. China): These markets carry a higher risk of financial loss than more developed markets as they may have less developed legal, political, economic or other systems.

#### Significant Purchases

Yakult Honsha Co., Ltd.: Food Beverage & Tobacco. Yakult's investment case is underpinned by earnings growth on the back of an improving product mix via its premiumisation strategy in Japan and volume recovery in China. The market's estimates are conservative, expecting i) a moderate mix improvement over time in Japan, in part due to capacity constraints which the company have been able to get around by upgrading existing facilities; ii) no growth in China despite price hikes and re-opening. Valuation is undemanding and at the lower end of historical average, with room for rerating on consistent earnings upgrades, better-than-expected China volumes, and better corporate governance and enhanced shareholder returns.

Aldar Properties - P J S C: Real Estate Management & Development. Aldar is Abu Dhabi's pre-eminent real estate company, with strong links to the government. These links provide strong support to the company and give it clear advantages in identifying new land and assets. Having come through several years of strong headwinds, where the company showed strong discipline in its capital allocation, the environment is now very positive, with a buoyant property market in Abu Dhabi and the UAE more generally. Valuation here is still not expensive given the quality of Aldar's assets and its clear ability to execute effectively.

Kia Corp.: Automobiles & Components. Auto demand has softened amid higher interest rates but is not falling precipitously. Against this backdrop, Kia has been executing well, with quarterly operating profit coming in above consensus and the company raising operating profit guidance for the year by 26%. Longer-term profitability remains uncertain, with the risk that demand falls sharply and/or the industry over-produces. However, this risk seems reflected in the valuation, with the share price moving broadly sideways, despite earnings upgrades. Longer term catalysts include improved shareholder distributions and a re-rating as the market comes to see Kia as a beneficiary of the transition to EV.

#### Significant Sales

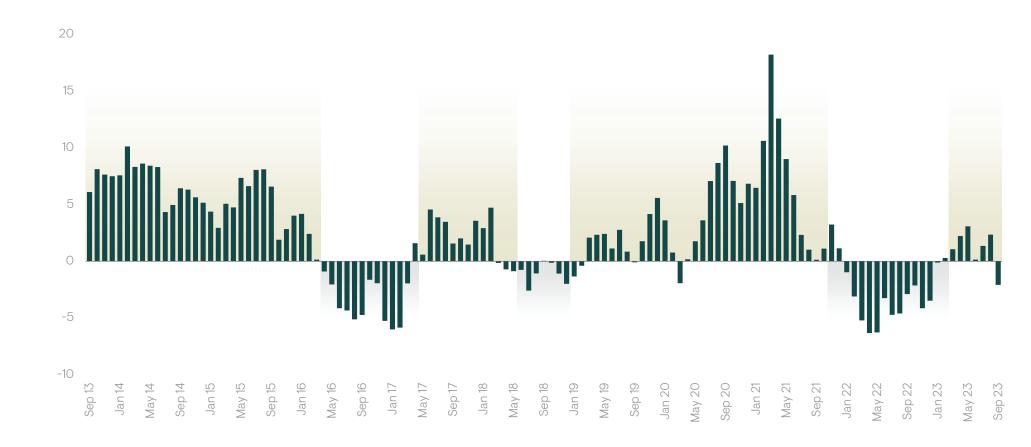

Nextage Co., Ltd.: Consumer Discretionary Distribution & Retail. We exited the shares upon hearing allegations of insurance claim malpractice, in addition to news of the CEO's departure, both of which are serious red flags.

Deutsche Telekom AG: Telecommunication Services. We grew concerned over a soft shift in narrative by management away from cash returns towards one of earnings growth, increasing the risk of dilutive M&A.

QIAGEN NV: Pharmaceuticals Biotechnology & Life Sciences. We exited the shares due to a perceived lack of operating momentum and limited visibility on medium term diagnostic market competitive dynamics.

### GIPS composite disclosure

#### 4Factor International Equity

#### 30 Sep 2023

Name Change --- The composite name was changed from 4Factor International Dynamic Equity to 4Factor International Equity, effective 01-Jan-2023

Benchmark Description --- Aims to generate returns in excess of benchmark, MSCI AC World ex US NDR (pre Jan-11, MSCI EAFE NDR)

Minimum Asset Level --- This composite has no minimum asset level.

Composite Description --- Global ex US equity mandates run against the MSCI EAFE or MSCI AC World Ex US index using Ninety One's Four Factor process.

Comparison Index History - The current Comparison Index is MSCI AC World ex US NDR. From 30-Apr-2005 to 31-Dec-2010 the Comparison Index was MSCI EAFE NDR.

Comparison Index Description - The MSCI All Country World ex-US Index is a market capitalisation weighted index designed to provide a broad measure of equity-market performance throughout the world with the exception of the United States. Comprised of stocks from developed and emerging markets. Maintained by Morgan Stanley Capital International.

Comparison Index Description - The MSCI EAFE Index is a stock market index that is designed to measure the equity market performance of developed markets outside of the U.S. & Canada. The EAFE acronym stands for Europe, Australasia and Far East. Maintained by Morgan Stanley Capital International.

The reason for the Comparison Index change from MSCI EAFE to MSCI AC World ex US was to reflect the improved liquidity, investability and opportunity set in Emerging Markets.

Comparison Index Amendment --- As of 30-Jun-11 the composite Comparison Index was changed from the gross dividends reinvested index to the net dividends reinvested index. Gross indices assume that all withholding taxes can be reclaimed but, in reality, not all of them can be reclaimed. Net indices assume the minimum dividend reinvestment, net of all withholding taxes. Whilst neither index can be regarded as ideal, Ninety One believes that the net index provides the fairest comparative performance measure. The Comparison Index history was restated to the net dividends reinvested index.

Performance --- Performance stated as gross, is gross of investment management fees and where appropriate, portfolio net of fees returns have been grossed up using their respective Total Expense Ratios. Performance stated as net, is net of the highest standard institutional segregated portfolio management fee shown below. Both gross and net performance are shown net of all trading expenses. All portfolio returns are calculated net of irrecoverable tax and gross of recoverable tax on income and capital gains, and the calculation is based on the assumption that tax is deducted from income on the ex-dividend date. Additional information regarding the firm's policies for valuing portfolios, calculating performance and preparing GIPS reports is available upon request.

The composite name was changed from Four Factor EAFE Equity to Four Factor Global (ex US) Aggressive Equity from Jan-2011; and to Four Factor International Dynamic Equity from Apr-2013.

September 30, 2023

We are proud to announce that ACG has again been named a Greenwich Associates Quality Leader - recognized as one of the top consultants in the industry.

Methodology and Disclosure: Between February and November of 2022, Coalition Greenwich (previously known as Greenwich Associates), conducted in-person and phone interviews and online surveys with 727 professionals at 590 of the largest tax-exempt funds in the United States, including corporate and union funds, public funds, endowments and foundations, insurance general accounts, and healthcare organizations, with either pension or investment pool assets greater than \$150 million. Study participants were asked to provide quantitative and qualitative evaluations of their asset managers and investment consultants, including qualitative assessments of those firms soliciting their business and detailed information on important market trends. ACG is one of four firms recognized in the mid-size investment consultant category. The ratings may not be representative of any one client's experience with ACG; rather they are representative of those clients that chose to participate in the study.
